† 1 prisoner remains on death row.
Persons Executed for Interracial Murders

- Since 1973, more than 195 people have been released from death row with evidence of their innocence.
- An average of 3.94 wrongly convicted death-row prisoners have been exonerated each year since 1973.

Race of Death Row Prisoners and Death Row Prisoners by State Source: The Legal Defense Fund, “Death Row USA” (January 1, 2023). The combined state totals are slightly higher than the reported national total. That is because a few prisoners are sentenced to death in more than one state. Those prisoners are included in each state’s totals, but only once in the national total.

DEATH SENTENCING

MENTAL DISABILITIES

MENTAL DISABILITIES:

• Intellectual Disabilities: In 2002, the Supreme Court held in Atkins v. Virginia that it is unconstitutional to execute defendants with ‘mental retardation.’

• Mental Illness: The American Psychiatric Association, the American Psychological Association, the National Alliance for the Mentally Ill, and the American Bar Association have endorsed resolutions calling for an exemption of the severely mentally ill.

DETERRENCE

What Interferes with Effective Law Enforcement?

- Lack of law enforcement resource
- Drug/Alcohol abuse
- Family problems/child abuse
- Lack of programs for mentally ill
- Crowded courts
- Ineffective prosecution
- Too many guns
- Gangs

Insufficient use of the death penalty

EXECUTIONS SINCE 1976 BY METHOD USED

28 states plus the US government use lethal injection as their primary method. Some states utilizing lethal injection have other methods available as backups. New Hampshire abolished the death penalty in 2019, but the law was not retroactive, leaving one prisoner on death row and the lethal injection protocol intact.

JUVENILES

• In 2005, the Supreme Court in Roper v. Simmons struck down the death penalty for juveniles. Since 1976, 22 defendants had been executed for offenses committed as juveniles.

WOMEN

• There were 50 women on death row as of October 1, 2022. This constitutes 2.12% of the total death row population. (The Legal Defense Fund, October 1, 2022). 18 women have been executed since 1976.
COSTS OF THE DEATH PENALTY

- Capital trials cost more than non-capital cases because of higher costs for prosecution and defense lawyers; time consuming pre-trial investigation; lengthy jury selection process for death-qualification; enhanced security requirements; longer trials because of bifurcated proceedings; solitary confinement incarceration; and necessary appeals to ensure fairness.

- An economic analysis of independent research studies completed in 15 death penalty states from 2001 – 2017 found that the average difference in case-level costs for seeking the death penalty was just over $700,000. Report of the Oklahoma Death Penalty Review Commission, Table 1 at p.233 (2017).

- Oklahoma capital cases cost, on average, 3.2 times more than non-capital cases. (Study prepared by Peter A. Collins, Matthew J. Hickman, and Robert C. Boruchowitz, with research support by Alexa D. O’Brien, for the Oklahoma Death Penalty Review Commission, 2017.)

- Defense costs for death penalty trials in Kansas averaged about $400,000 per case, compared to $100,000 per case when the death penalty was not sought. (Kansas Judicial Council, 2014).

- A study in California revealed that the cost of the death penalty in the state has been over $4 billion since 1978. Study considered pre-trial and trial costs, costs of automatic appeals and state habeas corpus petitions, costs of federal habeas corpus appeals, and costs of incarceration on death row. (Alarcon & Mitchell, 2011).

PUBLIC OPINION AND THE DEATH PENALTY

Support for Alternatives to the Death Penalty

- A 2019 poll by Gallup found that a clear majority of voters (60%) would choose a punishment other than the death penalty for murder.
