

DEATH PENALTY CASE  
\*\*\*\* EXECUTION SCHEDULED FOR APRIL 24, 2017

**FILED**  
U.S. DISTRICT COURT  
EASTERN DISTRICT ARKANSAS  
APR 11 2017  
JAMES W. McCORMACK, CLERK  
By: *[Signature]*  
DEP CLERK

MARCEL WAYNE WILLIAMS,  
  
Plaintiff,

v.

Case Number 5:17-cv-103 JM

WENDY KELLEY, Director, Arkansas  
Department of Correction, in her official  
capacity; RORY GRIFFIN, Deputy Director,  
Arkansas Department of Correction, in his  
official capacity; and DALE REED, Chief  
Deputy Director, Arkansas Department of  
Correction, in his official capacity,

This case assigned to District Judge *Moody*  
*Deere*

Defendants.

COMPLAINT

Plaintiff Marcel Wayne Williams, scheduled to be executed on April 24, 2017, seeks both emergency and permanent relief, requesting this Court enjoin his execution under 42 U.S.C. § 1983 and the Eighth Amendment of the United States Constitution because due to the unique and specific medical conditions of Mr. Williams, there is a substantial and unjustifiable risk that Arkansas's lethal-injection protocol will affect Mr. Williams differently than an average healthy inmate and will cause severe pain and serious harm to him. There is a substantial and unjustifiable risk that Mr. Williams will consciously experience a suffocating death or the protocol will fail to kill Mr. Williams,

and he will be left permanently disabled as a result of oxygen deprivation and multi-system organ damage.

## INTRODUCTION

1. Mr. Williams is an inmate currently residing at the Varner Supermax Unit of the Arkansas Department of Corrections under a sentence of death. He suffers from multiple health conditions, including diabetes, hypertension, hypertriglyceridemia, hypercholesterolemia, morbid obesity, and sleep apnea.
2. Mr. Williams cannot be executed under Arkansas's current lethal-injection protocol without inflicting cruel and unusual punishment in violation of the Eighth Amendment.
3. A highly trained, board-certified anesthesiologist from the Emory University School of Medicine has provided a sworn statement that Mr. Williams's medical conditions create a substantial risk that he will suffer during an execution using the current Arkansas lethal-injection protocol. Dr. Zivot surmises that Mr. Williams will experience either a prolonged, painful execution or he will suffer irreversible organ damage rather than death.
4. Mr. Williams brings this lawsuit, as sole plaintiff, because his situation is unique and the risks to him during an execution using the lethal-injection protocol currently provided for are grave. The claims raised in this suit are based on his unique medical condition and are separate and distinct from claims raised by

any other plaintiff. Mr. Williams's claims do not rest on the inherent dangers in Arkansas's lethal-injection protocol to all death-sentenced prisoners but on the specific and unique facts of his medical conditions.

### **JURISDICTION AND VENUE**

5. Jurisdiction is conferred by 28 U.S.C. § 1331 and § 1343, which provide for original jurisdiction of this Court in suits based respectively on federal questions and authorized by 42 U.S.C. § 1983, which provides a cause of action for the protection of rights, privileges, or immunities secured by the Constitution of the United States. Jurisdiction is further conferred by 28 U.S.C. § 2201 and § 2201, which authorize actions for declaratory and injunctive relief.
6. Venue is proper under 28 U.S.C. § 1391(b) in that the Defendants reside in the territorial jurisdiction of this district, and the Defendants plan to execute Mr. Williams within this Court's territorial jurisdiction.

### **PARTIES**

7. Plaintiff Marcel Wayne Williams is a resident of the State of Arkansas and presently resides at the Varner Supermax Unit in Grady, Arkansas. He is sentenced to death and is scheduled to die by lethal injection on April 24, 2017. Mr. Williams has exhausted his claims administratively through the Varner Unit grievance procedures.

8. Defendant Wendy Kelley is the Director of the Arkansas Department of Corrections (ADC). Her office is located at the Central Office of the ADC, 6814 Princeton Pike, Pine Bluff, Arkansas 71602. Director Kelley or her designee is statutorily responsible for “order[ing] the dispensation and administration of the drug or drugs . . . for the purpose of carrying out the lethal-injection procedure.” Ark. Code Ann. § 5-4-617. The Director is also statutorily required to “develop logistical procedures to carry out the sentence of death.” *Id.*
9. Defendant Rory Griffin is the Deputy Director of Health/Programs for the ADC. He is responsible for overseeing medical services for the ADC.
10. Defendant Dale Reed is the Chief Deputy Director of Institutions and is responsible for overseeing the Cummins Unit where executions take place.
11. Either Mr. Griffin or Mr. Reed is responsible under the Arkansas lethal-injection protocol for gaining IV access on Mr. Williams prior to his execution, preparing the chemicals for the execution, directing the administration of the chemicals, assessing whether Mr. Williams is unconscious, and monitoring the IV site to determine whether it has “fail[ed].” (Exhibit 2). In the event that Mr. Reed or Mr. Griffin do not personally carry out these tasks, they are charged with selecting a designee who will do so. *Id.*
12. All defendants are sued in their official and individual capacities. All actions taken by them are taken under color of state law.

## FACTUAL BACKGROUND

### Mr. Williams's Medical Conditions

13. Mr. Williams has spent his entire adult life, save the eight months in which he committed the crime for which he is sentenced to die, in the Arkansas Department of Corrections. When he entered the Cummins Unit off a parole revocation in 1995 while awaiting trial on a capital-murder charge, he weighed 195 pounds. On January 14, 1997, he was sentenced to death by judgment of the Pulaski County Circuit Court and transferred to the Tucker Max Unit. There he stayed, in a single-man cell until death row was moved in 2003 to the Varner Supermax Unit.
14. Mr. Williams's cell at the Supermax unit is ninety square feet. For reference this is about half the size of a standard parking space. *See* Little Rock Municipal Code § 36-511 and Exhibit 1. This ninety-foot square concrete box contains Mr. Williams's shower, toilet, bed, and a small concrete block for a table. Exhibit 2. Five days a week he is allowed one hour a day "recreation" time outside his cell. The recreation area is a covered, fenced dog-run area that is only marginally bigger than his cell.
15. Death row inmates are not allowed to have jobs within the prison. They eat all their meals in their cells. Breakfast is fed to the death row barracks at 2:30 a.m. in the morning. Many inmates awake from sleep, eat, and go back to bed. Lunch is

fed around ten in the morning. Dinner is fed around two or three in the afternoon. If inmates are hungry in the twelve-hour stretch between meals, they can, if financially able, eat food purchased from the prison canteen.

16. In the twenty years that Mr. Williams has been housed in extreme solitary confinement, he has gained two hundred pounds and developed high blood pressure, diabetes, and high cholesterol. The prison has recorded Mr. Williams's body mass index at 48.74. Body mass index is a measure of body fat based on height and weight. Exhibit 3. A body mass index chart goes from 19 at the low end to 54 at the high end. Persons with body mass indexes 40 and above are considered the "Extreme Obesity" range.
17. Mr. Williams was first diagnosed with diabetes on April 24, 2015. Exhibit 4.
18. On April 24, 2015, he was also diagnosed with hypertriglyceridemia and hypercholesterolemia. Hypertriglyceridemia is a condition in which triglyceride levels are elevated. Triglycerides are essentially fat in the blood.  
  
Hypercholesterolemia is elevated cholesterol levels. In particular, Mr. Williams's LDL, low-density lipoprotein, cholesterol is elevated above recommended levels.
19. Mr. Williams is currently prescribed twelve prescription medications to treat his myriad of health conditions, including low-dose aspirin, amlodipine besylate 10 mg (hypertension), furosemide 40 mg (hypertension), atenolol 100 mg (hypertension), atorvastatin 20 mg or 40 mg (cholesterol), potassium chloride 10

mEq (low potassium), humulin (diabetes), gabapentin 600 mg (diabetes complications), glipizide 10 mg (diabetes), and meloxicam 15mg (arthritis).

**Arkansas's Lethal-Injection Protocol**

20. Defendant Kelley has adopted a lethal-injection protocol to execute inmates with a death warrant. The protocol calls for the inmate to be placed flat on his back on a gurney and tied down. In past executions, the inmate has been strapped at the wrists and ankles. The current protocol fails to specify where or how the inmate should be strapped down but does list "straps" as "necessary items." Exhibit 5. Next, an IV will be inserted into his body, either one in each arm or at an "other standard anatomical venous point of entry." In the event two intravenous sites are not able to be established, the protocol allows for the execution to proceed with one site. If the IV team is unable to establish IV access, a central line will be attempted.
21. The amounts of the chemicals used will not be altered unless the condemned inmate exceeds 500 pounds. Exhibit 5.
22. The first chemical in the three-drug protocol is midazolam. Two syringes, each with 250 mg of midazolam, are prepared for the execution. The first syringe of midazolam will be fully administered before the second syringe is administered. Following the midazolam, the IV is flushed with 60 ml of saline. Thereafter, the protocol requires that deputy director or designee to wait at least five minutes

after commencing administration of the first syringe of midazolam before confirming the inmate is unconscious. In the event the inmate remains conscious after the administration of the first three syringes, backup syringes of midazolam and saline will be administered, in the same amounts as the first administration. Again at least five minutes must expire from the administration of the first backup syringe before the deputy director or designee can confirm the inmate is unconscious. The protocol fails to illustrate the procedure if the inmate remains conscious after the backup syringes have been administered. Exhibit 5.

23. Once the inmate is determined to be unconscious, the remaining drugs in the protocol will be administered. The second drug is vecuronium bromide, and two syringes each holding 50 mg are prepared. Again, 60 ml of saline is used to flush the IV. The final drug in the protocol is potassium chloride. Two syringes each holding 120 mEq of the drug are prepared. A third syringe of 60 ml of saline is also prepared. The protocol gives no guidance on what procedures will be ordered if the last two drugs in the protocol fail to perform as expected. The only contingency provided for by the protocol is problems with the infusion site. Exhibit 5.

24. If the inmate is not killed by the execution, there is no protocol or equipment for resuscitating the inmate. The protocol allows for an IV team where there are problems with the infusion site. That team will be made up of an individual or

individuals—the protocol is not clear how many members make up a “team” — who have at least two years of experience in any of the following fields: emergency medical technician (intermediate), emergency medical technician (paramedic), nurse, physician assistant, or physician. Exhibit 5.

25. If the execution is halted, and the inmate remains alive, the State of Arkansas must resume medical care of the inmate, as it is obligated to do under the Eighth and Fourteenth Amendments to the United States Constitution. The protocol is silent as to this possible scenario.

**Declaration of Dr. Joel Zivot**

26. Dr. Joel Zivot is a highly trained, board-certified physician. He has served as the Medical Director of the Cardio-Thoracic Intensive Care Unit and the Fellowship Director for Critical Care Medicine at Emory University Hospital. He is an Associate Professor of Anesthesiology and Surgery at the Emory University School of Medicine and an adjunct Professor of Law at Emory University Law School. He has practiced anesthesiology and critical care medicine for twenty-two years, and has personally performed or supervised the care of more than 42,000 patients. Exhibit 6.
27. Dr. Zivot has reviewed the medical records for Mr. Williams and performed an in-person physical examination of him of March 23, 2017. Exhibit 7.

28. Based on his examination, Dr. Zivot found that the lethal-injection protocol as written is unlikely to succeed in killing Mr. Williams. Rather, it is a more likely result that Mr. Williams will be left with disabling, irreversible injuries. Dr. Zivot concluded that if the current lethal-injection protocol succeeds in executing Mr. Williams, it will be a slow, agonizing death experienced as suffocation.
29. Based on Mr. Williams's diagnosis as a diabetic, Mr. Williams's blood sugar must be monitored closely. If appropriate treatment for Mr. Williams's diabetes is not provided in advance of the lethal-injection procedure and throughout the preparatory phase, he could experience a blood-sugar crisis manifesting as various cognitive effects, such as confusion, abnormal behavior, visual disturbances, seizures, or loss of consciousness. Moreover, such a blood-sugar crisis could result in serious and permanent injury.
30. Mr. Williams is already taking potassium chloride to counteract the potassium deficiency he suffers as a result of diuretic therapy to treat his hypertension. It is possible that the State's administration of potassium chloride as an execution drug will not render death.
31. Due to Mr. William's large size, venous access will be greatly compromised and proper drug administration will be affected. Exhibit 8. Further, midazolam does not provide the anesthetic effect contemplated by the State in its lethal-injection protocol, and Mr. Williams's size makes complicates matters. Exhibit 9.

32. Mr. Williams's size also makes it more likely that he will experience respiratory distress during the execution. He suffers from obstructive sleep apnea (OSA), which causes interruptions in breathing during states of reduced consciousness. Even the minimal sedation from midazolam can cause airway obstruction and cessation of efficient breathing. Furthermore, Mr. Williams's size means that his blood oxygen will drop at a faster rate than a person of normal size. Blood oxygen reduction can cause damage to the brain and other organs before the second or third drug are administered. If those drugs fail to execute Mr. Williams, he will survive with significant new medical problems.

33. Dr. Zivot concluded that if the Arkansas lethal-injection protocol is carried out as written, Mr. Williams in particular, because of his specific medical conditions, will suffer respiratory distress and hypoxia, and he is at serious risk for irreversible organ damage.

**Alternatives to Significantly Reduce Substantial Risk of Pain to Mr. Williams**

34. First, Mr. Williams submits that a death-row inmate in an as-applied constitutional challenge is not required to plead an alternative method of execution. See *Bucklew v. Lombardi*, 783 F.3d 1120, 1129 (8th Cir. 2015) (concurring opinion); see also *Gissendaner v. Commissioner*, 803 F.3d 565, 581 (11th Cir. 2015) (dissenting opinion). "A state cannot be excused from taking into account a particular inmate's existing physical disability or health condition when

assessing the propriety of its execution method. When, as here, a death row inmate with a health condition does not have sufficient access to information or testing, that inmate cannot be expected to plead an alternative method.” *Bucklew*, 783 F.3d at 1129.

35. However, in the event Mr. Williams is required to identify a feasible alternative, Defendants can and should adopt sufficient safeguards, as detailed below, in order to avoid the significant risks inherent in executing Mr. Williams pursuant to the current lethal-injection protocol.
36. Defendants can and should continue medicating Mr. Williams appropriately based on his various medical conditions up to the date of execution. This includes monitoring Mr. Williams’s blood sugar.
37. Defendants can and should require that the second and third drugs in the protocol not be administered until it is determined that Mr. Williams has reached a surgical plane of anesthesia, rendering him insensate to pain and unaware of his surroundings. Because of the complications presented by sedating a person with OSA, it is critical that Mr. Williams be monitored during this stage. This can be accomplished by having a trained and experienced person, such as an anesthesiologist or certified registered nurse anesthetist, available to monitor Mr. Williams’s reaction to the first drug in the protocol.

38. Defendants can and should have a resuscitation protocol in place in the likely event Mr. Williams's execution fails due to his various medical conditions in order to reduce the likelihood of permanent injury to Mr. Williams, including brain damage, organ failure, or other injury.
39. Defendants can and should have equipment, personnel, and medication necessary to revive Mr. Williams on hand and available in the likely event the execution fails and he remains conscious. Defendants should have antidotes on hand for the midazolam, vecuronium bromide, and potassium chloride.
40. Defendants can and should use pentobarbital alone as a method of executing Mr. Williams. Pentobarbital is a short-acting barbiturate. The current statute providing for methods of execution, Ark. Code Ann. § 5-4-617, provides as an alternative method that the Arkansas Department of Corrections may use a barbiturate alone to effectuate execution. Mr. Williams contends that because of his myriad of medical issues, a high dose of pentobarbital would be a safer, more humane option for his execution.
41. If Arkansas does not currently have pentobarbital on hand and cannot purchase pentobarbital to use in executions directly from drug manufacturers, Plaintiff proposes that compounded pentobarbital be used as an alternative. Arkansas has taken significant steps toward acquiring compounded drugs by amending Ark. Code Ann. § 5-4-617 to allow for the acquisition of such drugs from a

compounding pharmacy and to protect the identity of the entity or person who compounds, tests, sells, or supplies the execution drugs. Other states have acquired pentobarbital and are using it for executions using a one-drug protocol. For instance, Texas recently used pentobarbital alone to conduct an execution. Exhibit 10.

42. Due to the real possibility that because of Mr. Williams's weight, his veins will be difficult, if not impossible, to access, execution by firing squad is an alternative method that would significantly reduce the substantial risk of pain to Mr. Williams. Execution by firing squad is feasible, as is evident from the June 18, 2010, firing-squad execution of Ronnie Lee Gardner by the State of Utah and the firing-squad protocol used by the State of Utah in that execution. Exhibit 11. The State of Arkansas has access to guns, ammunition, and personnel to accomplish execution by this method.
43. All of the alternatives above are feasible, readily implemented, and significant would reduce the substantial risk of pain to Mr. Williams.

### **CLAIM FOR RELIEF**

#### **Count 1: Infliction of Cruel and Unusual Punishment**

44. Mr. Williams alleges and incorporates by reference the averments set forth in paragraphs 1 through 43 above as though fully stated herein.

45. Execution by lethal injection poses unique and specific risks to Mr. Williams due to his medical conditions.
46. There is a substantial and unjustifiable risk that the Defendants' use of midazolam, vecuronium bromide, and potassium chloride to execute Mr. Williams will cause severe pain and permanent injury to Mr. Williams.
47. Mr. Williams has a life and liberty interest under the Due Process Clause of the Fourteenth Amendment in not being executed by the State of Arkansas in violation of the Cruel and Unusual Clause of the Eighth Amendment to the United States Constitution.
48. Defendants' intended actions as set forth in this Complaint violate the Cruel and Unusual Clause of the Eighth Amendment to the United States Constitution, as applied to the States by the Fourteenth Amendment and enforceable through 42 U.S.C. § 1983.
49. If not enjoined by the Court, Defendants and their agents, representatives, and employees will violate Mr. Williams's right to be free from cruel and unusual punishment as guaranteed by the Eighth and Fourteenth Amendments to the United States Constitution. This course of conduct will cause Mr. Williams to suffer irreparable injury. Mr. Williams does not have a plain, speedy, and adequate remedy at law for such an injury. Accordingly, injunctive relief pursuant to 42 U.S.C. § 1983 and other authority is proper.

50. An actual and substantial controversy exists between Mr. Williams and Defendants as to their respective legal rights and duties. Mr. Williams contends that as applied to him, the Arkansas lethal-injection protocol violates his rights as guaranteed by the Eighth and Fourteenth Amendments to the United States Constitution. It is anticipated that Defendants will contend otherwise. Accordingly, declaratory relief pursuant to 28 U.S.C. § 2201 is proper.

**PRAYER FOR RELIEF**

51. Mr. Williams prays for this Court to issue appropriate declaratory relief regarding the unconstitutional acts and practices of Defendants as applied to Mr. Williams.

52. Mr. Williams also prays for appropriate permanent equitable relief against all Defendants, permanently enjoining them from conducting an execution by the current lethal-injection protocol with respect to this individual.

WHEREFORE, based on the foregoing, Plaintiff Marcel Wayne Williams prays for this Court's orders and judgments as set forth above.

RE: Request for Inmate Records

Dear Mrs. Claibourne,

Please consider this letter my formal request for medical records on our client, **Marcel Williams SK#943, DOB: 08/20/1970**, who is held on death row at the Varner Super Max Unit. Mr. Williams has signed confidential release of information forms authorizing this office to have copies of his file. Please find attached a copy of the court order from the 8th Circuit Court of Appeals appointing this office as attorney of record for Mr. Williams.

The records should include ANY and ALL records from October 1, 2015 to present in the possession of Arkansas Department of Correction pertaining to Mr. Williams' medical records, all information and/or records in your possession or to which you have access, of any form or medium, including but not limited to reports, forms, files, radiographs, EEG/EKG printouts, MRI/PET/SPECT or any other images or printouts, computer files and printouts, notes, memoranda, discharge summaries, medication records, nurses' notes, physicians orders, referrals, surgical and operating room records, emergency room records, correspondence and all other documents relating in any way to my psychiatric, psychological, and medical history and/or treatment, including those relating to communicable diseases, HIV/AIDS status and substance abuse and dependence, by you and any other entity.

If you have any questions or comments, please don't hesitate to call me at 501-324-6114 or on my cell at 501-590-4351.

Thank you in advance for your help in this matter.

Sincerely,

**HIPAA COMPLIANT AUTHORIZATION FOR RELEASE  
OF INFORMATION**

I, Marcel Williams, DOB:08/20/1970, by this release or a photocopy or facsimile transmission thereof, authorize and request all covered health care providers to release to the Federal Public Defender, Capital Habeas Unit (FPD CHU), or any representative thereof, any and all information and/or records in your possession or to which you have access, of any form or medium, including but not limited to reports, forms, files, radiographs, EEG/EKG printouts, MRI/PET/SPECT or any other images or printouts, computer files and printouts, notes, memoranda, discharge summaries, medication records, nurses notes, physicians' orders, referrals, surgical and operating room records, emergency room records, correspondence and all other documents relating in any way to my psychiatric, psychological, and medical history and/or treatment, including those relating to communicable diseases, HIV/AIDS status and substance abuse and dependence, by you and any other entity.

I understand that I may refuse to sign this authorization and that my refusal to sign will not affect my ability to obtain treatment or payment or my eligibility for benefits. I may inspect or copy any information used/disclosed under this authorization to the extent allowed by law.

I expressly authorize and request you to disclose and discuss with FPD CHU or its representative any information including, but not limited to, otherwise confidential information received from, provided to and/or exchanged with any and all past or present doctors, mental health professionals, experts, lawyers, law enforcement officers, witnesses, prosecutors, judges, probation officers, correctional officers, counselors or any other individuals.

This authorization is for the purpose of use in habeas and clemency proceedings and will expire upon the completion of those proceedings. However, I know that I can revoke this authorization by writing to the FPD CHU or any representative thereof my desire to revoke it. I understand that I have a right to a copy of this authorization. I understand that the FPD CHU or a representative thereof may re-disclose the information to individuals or organizations not subject to HIPAA. I hereby release you (in your individual and professional capacity) from any and all liability arising from the disclosure of otherwise confidential information.

You are specifically authorized to photocopy records and to release and/or send copies to FPD CHU or its representative.

**AUTHORIZATION FOR RELEASE OF  
INFORMATION AND RECORDS**

I, Marcel Williams, DOB:08/20/1970, by this release or a photocopy or facsimile transmission thereof, authorize and request you to release to the Arkansas Federal Public Defender, Capital Habeas Unit ("FPD CHU"), or its representative, any and all information and/or records relating to me, including (but not limited to) academic, adoption, social services, welfare, child protective services, correctional (including all prison and jail records), employment (including worker's compensation and unemployment), social security (including earnings information), juvenile, law enforcement (including arrest and incident reports), financial (including banking, tax and savings and loan records), military, probation, and rehabilitation (including alcohol and drug rehabilitation) records, as well as any and all files, reports, memoranda and notes prepared, received and/or maintained in connection with prior or pending civil, family, juvenile or criminal litigation, and any other correspondence or documents.

This document expressly allows and authorizes you to disclose and discuss with the FPD CHU or its representative any information including, but not limited to, otherwise confidential information received from, provided to and/or exchanged with any and all past or present doctors, mental health professionals, experts, lawyers, law enforcement officers, witnesses, prosecutors, judges, probation officers, correctional officers, counselors or any other individuals, pertaining to all matters including, but not limited to the subject, substance and outcome of any communications pertaining to the preparation, litigation, negotiation, settlement and/or disposition of any and all litigation in which I was a party, witness or potential witness. In consideration of such disclosure, I hereby release you (in your individual and professional capacity) from any and all liability arising from the disclosure of otherwise confidential information.

You are specifically authorized to photocopy records and to release copies to the FPD CHU or its representative.

EXAMINATION/TREATMENT FORM

INMATE NAME: Williams, M. ADC NUMBER: 943

THIS IS TO CERTIFY THAT ON THE 21<sup>st</sup> DAY OF Nov, 2016 AT \_\_\_\_\_ O'CLOCK, \_\_\_\_\_ M., I HAVE REFUSED TO RECEIVE THE MEDICAL/SURGICAL EXAMINATION AND/OR TREATMENT DESCRIBED BELOW, THE SAME HAVING BEEN EXPLAINED TO ME AND RECOMMENDED BY MEDICAL STAFF. I UNDERSTAND THAT THIS IS AGAINST THE PROFESSIONAL ADVICE OF MEDICAL STAFF PERSONNEL AND STANDARD TREATMENT PRACTICES. I ACKNOWLEDGE THAT I HAVE BEEN INFORMED OF THE TYPE AND NATURE OF MEDICAL EXAMINATION AND/OR TREATMENT WHICH IS BEING RECOMMENDED, THAT THE MEDICAL EXAMINATION AND OR TREATMENT HAS BEEN EXPLAINED TO ME, AND I HAVE BEEN EXPLAINED THE RISK AND CONSEQUENCES INVOLVED FOR REFUSING THE SAME. WITH COMPLETE KNOWLEDGE OF THE ABOVE INFORMATION I DO HEREBY RELEASE THE MEDICAL CARE PROVIDER AND ITS MEDICAL STAFF, AS WELL AS THE ARKANSAS DEPARTMENT OF CORRECTIONS AND ITS STAFF, FROM ALL RESPONSIBILITY FOR ANY ILL EFFECTS OF ANY NATURE WHICH MAY RESULT FROM MY DECISION. I FURTHER STATE THAT I HAVE ARRIVED AT THIS DECISION ON MY OWN, WITHOUT COERCION FROM ANYONE, MEDICAL STAFF, DEPARTMENT OF CORRECTIONS STAFF, OR OTHERWISE.

TYPE OF TREATMENT OR MEDICAL CARE REFUSED AND REASON FOR REFUSAL:

Refusal of Drug Therapy

I HAVE READ THE LANGUAGE OF THIS DOCUMENT (OR HAVE HAD THE DOCUMENT READ TO ME) AND DISCUSSED THE CONTENT AND EFFECT OF MY DECISION WITH MEDICAL STAFF, AND I UNDERSTAND THE RISKS PRESENTED.

**LETHAL INJECTION PROCEDURE (Attachment C)**

**SECTION I. General**

1. The Deputy Director, or designee, is responsible for assuring that the chemicals for lethal injection, the gurney, straps, and other necessary items, are available for use on the scheduled date of execution. The Deputy Director, or the designee, shall be healthcare trained, educated, and/or experienced in matters related to the establishment and monitoring of IVs, the mixing and administration of the chemicals, and assessing the presence or absence of consciousness.
2. When the chemicals have been received, the Deputy Director, or the designee, shall verify as to type and concentration, and thereafter supervise any necessary mixing or reconstituting of the chemicals in such a manner as will meet the injection requirements (see Chart A) and in accordance with manufacturer's instructions. The mixed or reconstituted chemicals shall be transferred to an appropriate syringe(s) and thereafter placed in a designated Injection Drug Box. The box will be secured and conveyed to the Cummins Unit.
3. The Deputy Director, or designee, shall maintain physical custody of the Injection Drug Box and physically convey the box directly to the execution chamber for use. If not used, the Deputy Director, or designee, shall secure the Drug Box until used or destroyed.
4. Orientation of the executioner(s) to the Department's *Lethal Injection Procedure*, if needed, will be conducted prior to the day of the execution and provided by the Director and/or designee(s).
5. On the evening of the execution, the executioner(s) shall, under the supervision of the Director, or designee, enter the injection room prior to the scheduled time of the execution and shall immediately inventory the Injection Drug Box to ensure that all chemicals are accounted for and that the infusion device(s) are in readiness.
6. The execution gurney will be positioned in the death chamber so that the Deputy Director, or designee, and the executioner(s) can directly observe the condemned inmate's face and IV infusion site(s).

Revised 08/06/2015

## **SECTION II. IV Set-Up Procedure**

1. The Deputy Director, or designee, shall have an intravenous infusion device placed in each arm, or other standard anatomical venous point of entry, of the condemned inmate and a solution of N.S. (Normal Saline) available for an infusion medium. The individual(s) engaged in this activity will be referred to as the IV Team and shall be qualified as set forth in Section V.
2. An IV administration set shall be inserted into the outlet of the bag of N.S. IV solution. Two (2) IV bags will be set up in this manner.
3. The administration set tubing for each set-up will be connected to the receiving port of the three-way control devices; one left arm/side, the other for the right arm/side.
4. IV extension tubing will be connected to the discharge ports on the right/left three-way control devices and shall be thereafter connected to the applicable right and left IV insertion site(s). Extension tubing will be of sufficient length to accommodate the distance from control device to IV insertion site(s).
5. The tubing shall be cleared of air and made ready for use.
6. Intravenous catheters shall be initiated through standard procedure for such devices. Once the infusion of the IV solution has been assured, the IV devices shall be secured as appropriate.
7. At this point, the administration sets shall be running at a slow rate of flow (KVO), and ready for the insertion of syringes containing the chemicals. The Deputy Director, or designee, shall maintain observation of IV infusion(s) to ensure that the rate of flow is uninterrupted. NO FURTHER ACTION shall be taken until the prearranged signal to start the injection of chemicals is given by the Warden.
8. In the event that a patent intravenous infusion site cannot be established, the IV Team shall be directed by the Deputy Director, or designee, to evaluate other possible infusion sites. All effort will be made to establish two (2) unrelated intravenous infusion sites. If one (1) patent infusion site is established, and a second site proves to be a futile effort, the Deputy Director, or designee, may direct the IV Team to suspend further action to establish a second site and proceed with one site. In the case that no patent infusion site is established after reasonable attempts as determined by the IV Team, the Deputy Director, or designee, will direct the IV Team to suspend further action and thereafter summon trained, educated, and experienced person(s) necessary to establish a primary IV line as a peripheral line or as a central venous line.

EVERY EFFORT WILL BE EXTENDED TO THE CONDEMNED INMATE TO ENSURE THAT NO UNNECESSARY PAIN OR SUFFERING IS INFLICTED BY THE IV PROCEDURE. STANDARD PRACTICE OF USING A LOCAL ANESTHETIC (1% LIDOCAINE) WILL BE ACCOMMODATED AS NECESSARY.

Revised 08/06/2015

**SECTION III. Preparation of Chemicals**

1. The Deputy Director, or the designee(s), and a member of the IV Team shall prepare the designated chemicals and syringes for a total of one (1) complete set of chemicals. One (1) complete set of syringes is used in the implementation of the death sentence and an additional complete set of the necessary chemicals shall be obtained and kept available. The specific chemical contained in each syringe will be identified with the following information as set forth in the chemical charts:
  - a. Assigned number
  - b. Chemical name
  - c. Chemical amount
  - d. Designated color
2. The quantities of chemicals prepared and administered shall not be changed in any manner without prior documented approval of the director.
3. All prepared chemicals shall be utilized or properly disposed of in a timely manner after the time designated for the execution to occur.
4. The chemical amounts as set forth in the Chemical Chart are designated for the execution of persons weighing 500 pound or less. The chemical amounts shall be reviewed and may be revised as necessary for an offender exceeding this body weight.
5. **CHEMICAL CHART**
  - a. **CHART A:** Three (3) Drug Protocol with Midazolam, Vecuronium Bromide and Potassium Chloride

<b>CHEMICAL CHART</b>	
<b>Syringe No.</b>	<b>Label</b>
<b>1A</b>	250 mg midazolam, <b>GREEN</b>
<b>2A</b>	250 mg midazolam, <b>GREEN</b>
<b>3A</b>	60 ml saline, <b>BLACK</b>
<b>4A</b>	50 mg vecuronium bromide, <b>YELLOW</b>
<b>5A</b>	50 mg vecuronium bromide, <b>YELLOW</b>
<b>6A</b>	60 ml saline, <b>BLACK</b>
<b>7A</b>	120 mEq potassium chloride, <b>RED</b>
<b>8A</b>	120 mEq potassium chloride, <b>RED</b>
<b>9A</b>	60 ml saline, <b>BLACK</b>

Revised 08/06/2015

- (1) Syringes 1A and 2A shall each have a dose of 250 milligrams midazolam for a total dose of 500 milligrams. Each syringe containing midazolam shall have a **GREEN** label which contains the name of the chemical, the chemical amount and the designated syringe number.
- (2) Syringes 4A and 5A shall each have a dose of 50 milligrams vecuronium bromide for a total dose of 100 milligrams. Each syringe containing the selected bromide shall have a **YELLOW** label which contains the name of the chemical, the chemical amount and the designated syringe number.
- (3) Syringes 7A and 8A shall each contain 120 milliequivalents potassium chloride for a total dose of 240 milliequivalents. Each syringe containing potassium chloride shall have a **RED** label which contains the name of the chemical, the chemical amount and the designated syringe number.
- (4) Syringes 3A, 6A, and 9A shall each contain 60 milliliters of saline solution. Each syringe shall have a **BLACK** label which contains the name of the solution, amount of solution, and the designated syringe number.

#### **SECTION IV. Injection Procedure**

1. The three-way control device facilitates the movement of infusion fluid from saline bag or infusion fluid with the chemicals from the syringes. A valve serves to direct which fluid source is entering the IV set up.
2. When the signal to commence is given by the Warden, the executioner(s) shall administer the chemicals in the order they appear in chart A under the direction of the Deputy Director, or designee, as follows:
  - a. Syringe 1A shall be inserted into the designated chemical receiving port of the three-way control device.
  - b. The flow of IV solution will be interrupted by moving the three-way valve assembly to allow the infusion of chemical from Syringe 1A.
  - c. The contents of Syringe 1A shall commence with a steady even flow of the chemical and continue until the full dose of the chemical has been administered. Only the force necessary to activate the syringe plunger will be used.
  - d. When the contents of Syringe 1A have been injected, the three-way valve assembly will be moved so as to shut off the chemical receiving port and resume infusion of IV solution.

Revised 08/06/2015

- e. Syringe 1A will be replaced by Syringe 2A and the procedure described in subparagraphs a-d for Syringe 1A will be repeated. This process will be repeated for all subsequent syringes.
- f. Following the administration of syringe numbers 1A, 2A, and 3A, and after at least five (5) minutes have elapsed since commencing the administration of syringe 1A, the Deputy Director, or designee, will confirm the condemned inmate is unconscious by using all necessary and medically-appropriate methods. The Deputy Director, or designee, shall also confirm that the IV line(s) remains affixed and functioning properly.
- g. Once the Deputy Director, or designee, determines that the condemned inmate is unconscious, the remaining chemicals will be administered in the order they appear in Chart A.
- h. In the unlikely event that the Deputy Director, or designee, determines that the condemned inmate remains conscious following the administration of the chemicals in syringe numbers 1A, 2A, and 3A, the back-up syringes of the first chemical (Syringe 1B and 2B) and saline (Syringe 3B), shall be administered via the secondary or alternative IV line.
  - (1) Following the administration of syringe numbers 1B, 2B, and 3B, and after at least five (5) minutes have elapsed since commencing the administration of syringe 1B, the Deputy Director, or designee, will confirm the condemned inmate is unconscious by using all necessary and medically-appropriate methods. The Deputy Director, or designee, shall also confirm that the IV line(s) remains affixed and functioning properly.
  - (2) Once the Deputy Director, or designee, determines that the condemned inmate is unconscious, the remaining chemicals will be administered via the secondary or alternative IV line in the order they appear in Chart A.
- i. Throughout the chemical infusion process, the Deputy Director, or designee, will closely monitor the infusion site for evidence of infiltrate, vein collapse, or other challenge to the patency of the infusion site.
  - (1) Should a problem be suspected, the Deputy Director, or designee, will direct reduction of chemical flow rate or redirect chemical to the secondary or alternative site.
  - (2) In the use of a singular infusion site pursuant to Section II (8), if the infusion site is suspected to be compromised, chemical flow rate will be reduced. If problem persists, the:

Revised 08/06/2015

- (a) injection procedure will cease;
  - (b) curtain to death chamber will close; and
  - (c) the IV Team summoned, and the infusion site problem corrected.
- (3) If all efforts to re-establish patent infusion site fail, the Deputy Director, or designee, will direct the IV Team to suspend further action and trained, educated, and experienced person(s) necessary to establish a primary IV line as a peripheral line or as a central venous line will be summoned to facilitate an IV infusion site.
- (4) When the infusion compromise is corrected, the IV Team and the summoned person(s) will be excused, the curtain reopened, and the lethal injection procedure continued.

**Section V. IV Team Qualifications**

Each member of the IV team shall have at least two (2) years of professional experience and certification or licensure in at least one of the following fields:

- 1. Emergency Medical Technician-Intermediate, or
- 2. Emergency Medical Technician-Paramedic, or
- 3. Nurse, or
- 4. Physician Assistant, or
- 5. Physician.

Revised 08/06/2015

**EMORY UNIVERSITY SCHOOL OF MEDICINE  
CURRICULUM VITAE**

Revised: April 2017

1. Name: *Joel B. Zivot, MD, FRCP(C)*
2. Office Address:  
*1364 Clifton Road, Atlanta, GA 30322*  
*Telephone: (404) 686-4411*  
*Fax: (888) 980-5928*
3. E-mail Address: *Jzivot@emory.edu*
4. Citizenship:  
*American, Canadian*
5. Current Titles and Affiliations:
  - a. Academic Appointments:
    1. Primary Appointments:  
*Associate Professor, Department of Anesthesiology*
    2. Joint and Secondary Appointments:  
*Associate Professor, Department of Surgery*
    3. Other academic appointments  
*Adjunct Professor, Emory School of Law*  
*Adjunct Professor, Emory University Institute of Liberal Arts*
  - b. Other Administrative Appointments:  
  
*Medical Advisor, Southern Center for Human Rights, Atlanta, Georgia*
6. Previous Academic and Professional Appointments:  
  
*-Fellowship Director, Critical Care Medicine, Department of Anesthesiology, Emory University School of Medicine, Jan 2013-January 2016*  
*- Medical Director, 4A/5A, EUH (February 2013 –June 2015)*  
*- Medical Director, 11S, EUHM (June 2010-February 2013)*  
*- Associate Professor, Department of Anesthesiology, University of Manitoba, Winnipeg, Manitoba, Canada, 2007-2010*  
*- Member, Academic Promotions Committee, University of Manitoba, Faculty of Medicine, Winnipeg, Manitoba, Canada, 2009*  
*-Member of selection committee, Physician Assistant Program, The University of Manitoba, Winnipeg, Manitoba, Canada, 2008*  
*- Member, Accreditation Review Committee-Anesthesiologist Assistants, Commission on Accreditation of Allied Health Education Programs (ARC-AA), 2008*  
*- Assistant Professor, Department of Anesthesiology and Critical Care Medicine, George Washington University Hospital, District of Columbia, USA, 2005-2007*

- Program Medical Director, Master of Science in Anesthesiology, Case Western Reserve University School of Graduate Studies, Cleveland, Ohio, USA, 2000-2005
- Assistant Professor of Anesthesia, Surgery, and Intensive Care, University Hospitals of Cleveland, Case Western Reserve University School of Medicine, Cleveland, Ohio, USA, 1998-2005
- Director Critical Care Medicine Fellowship, Department of Anesthesiology, University of Michigan Medical Center, Ann Arbor, Michigan, USA, 1996-1998
- Assistant Professor, Department of Anesthesiology and Critical Care Medicine, University of Michigan Medical Center, 1995-1998

7. Previous Administrative and/or Clinical Appointments:

- Medical Director, Cardio-thoracic ICU, Intensive Care Cardiac Sciences Program, Winnipeg Regional Health Authority, Winnipeg, Manitoba, Canada, 2007-2010
- Medical Director, CTICU, George Washington University Hospital, Washington, DC, 2005-2007
- Co-Medical Director, Surgical Intensive Care Unit, University Hospitals of Cleveland, Case Western Reserve University, Cleveland, Ohio, USA, 2002-2005
- Director, Post Anesthesia Care Unit, Department of Anesthesiology, University of Michigan Medical Center, Ann Arbor, MI, 1995-1998

8. Licensures / Boards:

- Licentiate, Medical Council of Canada, 1989-present
- License, Controlled Substance, Drug Enforcement Agency, 1995-present
- License, Michigan State Medical Board, 1995-2000
- License, Ohio State Medical Board, 1998-2012
- Fellow, American College of Chest Physicians, 2000-2010
- License, District of Columbia Medical Board, 2005-present
- License, College of Physicians and Surgeons of Manitoba, 2007-2011
- License, Georgia Composite Medical Board, 2010-present

9. Specialty Boards:

- Fellow, Royal College of Physicians of Canada, 1993-present
- Diplomat, Anesthesiology, American Board of Anesthesiology, 1995-present
- Diplomat, Critical Care Medicine, American Board of Anesthesiology, 1995-present
- Fellow, American College of Chest Physicians, 2000-2010
- Testamur in basic peri-operative trans-esophageal echocardiography, National Board of Echocardiography, 2010-present

10. Education:

- University of Manitoba, Winnipeg, Manitoba, Canada, 1980-1983
- University of Toronto, Toronto, Ontario, Canada, 1984
- Doctor of Medicine, University of Manitoba, Winnipeg, Manitoba, Canada, 1988

11. Postgraduate Training:

- Rotating Internship, Mount Sinai Hospital, University of Toronto, Department of Post Graduate Medical Education, Toronto, Canada, 1988-1989
- Residency, Anesthesiology, University of Toronto, Department of Anesthesiology, Dr. David McKnight, Toronto, Canada, 1989-1993
- Residency, Anesthesiology, Cleveland Clinic Foundation, Department of Anesthesiology, Dr. Armin Schubert, Cleveland, Ohio, United States, 1993-1994
- Fellowship, Critical Care Medicine, Cleveland Clinic Foundation, Department of Anesthesiology, Dr. Marc Popovich, Cleveland, Ohio, United States, 1994-1995

*-Masters of Bioethics, Emory Center for Ethics, Dr. Toby Schonfeld, program director, 2012-present, expected graduation spring 2017*

12. Committee Memberships:

a. National and International:

*-American Society of Anesthesiology, Committee on Ethics, 2011-present*  
*-American Society of Anesthesiology, Care Team Committee, 2007-2009*  
*-Society of Critical Care Medicine, Committee on Ethics, 2011-present*  
*-Society of Critical Care Medicine, Patient and Family Satisfaction Committee, 2013-present*  
*-Society of Cardiovascular Anesthesiology, Committee on Ethics, 2012-2013*  
*-Society of Critical Care Anesthesiologists, Graduate Education Committee 2013-present*

b. Regional and State:

*-President, Cleveland Society of Anesthesiology, 2001-2002*  
*-President Elect, DC Society of Anesthesiology, 2006-2007*

c. Institutional:

*-EUHM Committee on Ethics, 2011-present*  
*-EUHM Pharmacy and Therapeutics Committee 2011-present*  
*-EUHM Executive Critical Care Committee 2010-present*  
*-EUHM CAUTI and CLABSI prevention committee 2010-present*  
*-EUH Executive Pharmacy Committee 2012-present*  
*-EUH Antibiotic Utilization Subcommittee 2012-present*  
*-EUH Resuscitation Committee 2013-present*  
*-EUH Difficult Airway ad-hoc group 2013-2014*  
*-EUH Executive Critical Care Committee 2013-present*  
*-Department of Anesthesiology Residency Review Committee 2013-present*  
*-EUH/EUHM CTS Quality Committee, 2012-present*

13. Peer Review Activities:

a. Manuscripts:

*-Canadian Journal of Anesthesiology, (manuscript reviewer), 2013*  
*-Critical Care Medicine, (manuscript reviewer), 2014-2015*  
*-Mayo Clinic Proceedings, (manuscript reviewer), 2015-*

b. Grant reviewer

*- Reviewed grant applications for The Emory Georgia Tech Healthcare Innovation Program (HIP), (HIP-ACTSI-GSU) Seed grant*

b. Conference Abstracts:

i. National and International:

*-American Society of Anesthesiology, 2012*

*Abstract Review Committee and poster session moderator*

ii. Regional:

*-Midwestern Anesthesia Resident Conference, 2001-2003  
Abstract reviewer*

14. Consultantships:

*-Merck Pharmaceuticals, physician advisory board, 2005-2007  
-Consultant for Wireless EKG Monitor, 2004-2005  
-Masimo Corporation, product design and physician advisory board, 2013-present  
-Doximity, physician advisory committee, 2014-present*

15. Honors and Awards:

*-Robert B. Sweet Clinical Instructor of the Year, University of Michigan, Department of Anesthesiology, 1997*

*-Outstanding Clinical Instructor of the Year, Case Western Reserve University, Master of Science in Anesthesiology Program, 1999*

*-Clinical Instructor of the Year, University Hospitals of Cleveland, Department of Anesthesiology, 2000*

*-Outstanding Clinical Instructor of the Year, Case Western Reserve University, Master of Science in Anesthesiology Program, 2001*

*-Meritorious Service Award, American Academy of Anesthesiologist Assistants, 2003*

*This award was given to me for academic work as the medical director of the Masters in Science of Anesthesiology at Case Western Reserve University and also advocacy for scope of practice, and committee work to improve the relationship between the American Society of Anesthesiology and American Academy of Anesthesiologist Assistants.*

*-Quality and Patient Safety Award, University Health Systems Consortium, 2002*

*This award was given by University Health System Consortium for various quality benchmark projects when I was the co-medical director of the Cardio-thoracic Intensive Care Unit at University Hospitals of Cleveland.*

*-Distinguished service by a Physician Award, American Academy of Anesthesiologist Assistants, 2005*

*This award was given to me for work with the American Academy of Anesthesiology Assistants annual meetings where I served as a speaker on multiple locations and also developed and hosted an annual Jeopardy game competition between all of the Masters of Science in Anesthesiology schools around the country.*

*-District of Columbia Annual Patient Safety Award, District of Columbia Department of Health, 2006*

*This award was given by the District of Columbia Department of Health for quality improvement work done when I was the medical director of the cardio-thoracic intensive care unit at George Washington University Hospital. I developed several collaborative quality projects between cardio-thoracic surgery and critical care medicine.*

*-Presidential Citation, Society of Critical Care Medicine, 2013*

*This award was given to me for work done within the Society of Critical Care Medicine that included writing a book chapter, service on 2 society committees, and moderating an on-line debate about the topic of end of life decisions in patients with implanted mechanical cardiac support devices.*

16. Society Memberships:

- American Academy of Anesthesiologist Assistant, 2005-present*
- American College of Chest Physicians, 2000-2007*
- American Medical Association, 1995-2000*
- American Medical Association (reactivated), 2010-present*
- Society of Critical Care Anesthesiologists, 1995-present*
- American Society of Anesthesiologists, 1993-present*
- Canadian Anesthesiologist Society, 2007-present*
- District of Columbia Society of Anesthesiologists, 2006-2007*
- International Anesthesia Research Society, 1996-2000*
- International Extra-Corporeal Life Support Organization, 1997-2005*
- Ohio Society of Anesthesiologists, 1993-2005*
- Society of Critical Care Medicine, 1995-present*
- Manitoba Medical Society, 2007-2010*
- Canadian Medical Association, 2008-2012*
- Georgia Society of Anesthesiologists, 2010-present*
- Society of Cardiovascular Anesthesiologists, 2010-present*
- Society of Academic Anesthesiology Associations, 2013-present*
- Medical Association of Georgia, 2016-*

17. Organization of National or International Conferences:

*"On the Ethics of Drug Shortages" June 2012, Jointly with the American Society of Anesthesiology and the Emory Center for Ethics*

- a. *Administrative Positions: Director, Meeting Planning Committee*
- b. *Sessions as chair: Overall conference chair*

18. Research Focus:

*Medicine, moral theory, rhetoric, semantics, end of life, physicians and vulnerable populations. Physician participation in lethal injection. Ethogram to study conflict in the operating room. Human factors in critical care decision-making and biological variability. Developed economic model explaining the national generic drug shortages. Studied Propofol wastage in the operating room.*

19. Grant Support:

- a. *Active Support:*
  - 1. *Other: Team Based Science (TBS) grant from the Department of Anesthesiology for Evaluation of conflict in the operating room, \$20,000.00*
  - 2. *The Emory Georgia Tech Healthcare Innovation Program (HIP), (HIP-ACTSI-GSU) Seed grant, \$25,000.00, for "Managing Conflict and Error in the Operating Room". Awarded July 2014.*

b. Previous Support

*\$20,000.00 from the American Society of Anesthesiology to plan the meeting "On the Ethics of Drug Shortages". June 2012*

20. Clinical Service Contributions

*-Medical director of 11S ICU (EUHM) and 4A/5A ICU (EUH),*

*I created and chaired a joint protocol development group with Critical Care Medicine, Surgery, Nursing, and Respiratory Therapy with the purpose of improving quality metrics in critical care medicine. This group accomplished several things including a blood conservation strategy for post-operative cardiac surgery patients, intra-aortic balloon pump removal, DVT and GI prophylaxis and the beginning of an atrial fibrillation management protocol. I also wrote and helped implement a rapid extubation protocol for EUH and EUHM cardiac surgery patients.*

*-Hospital Committee involvement*

*I was involved in several Emory committees that addressed a broad range of issues, (see 12 c)*

*-GME involvement, Fellowship Director, Critical Care Medicine, Department of Anesthesiology*

*I am the fellowship director for critical care medicine. I developed the first joint Anesthesiology-Emergency Medicine critical care medicine fellowship at Emory and I am expanding the number of fellows who will also be trained to assist in providing overnight coverage for airway management at EUH. Overnight airway coverage has been a project of the EUH emergency airway committee on which I am a member. My ongoing conflict project has been embraced by Emory Healthcare Office of Quality and they are also contributing to the funding and management of the project on an ongoing basis.*

21. Community Outreach:

Community Service

International:

*-St. Petersburg, Russia, 2002, 2004*

*Home visits to community members who were unable to travel to see a physician*

Regional:

*-Hurricane Katrina Medical Response Team, 2005*

*-Emory 500 Atlanta Motor Speedway Health Tent Volunteer, 2010*

Media

Op-Ed:

*-“Baby’s status as human is on trial” Op-Ed, Feb. 19, 2010, Winnipeg Free Press, 2010*

*-“Why I am for a moratorium on lethal injections” Op-Ed, Dec 15, 2013, USA Today, 2013*

*-“The Slippery Slope from Medicine to Lethal Injection” Op-Ed, May 2, 2014 TIME, 2014*

Interviews:

*Anesthesiology News, 2002*

22. Formal Teaching:

a. Medical Student Teaching:

- i. *Discovery Project: "Propofol wastage in the ICU" Medical student Mina Tran, 2012-2013, contact hours 4 hrs/week*
- ii. *Serve as teacher and mentor for medical students in anesthesiology and critical care medicine. 2010-present, contact hours: 3 hrs/week*
- iii. *Instructor for Fundamental Critical Care Support (FCCS) training course for medical students, 2012-present, contact hours: 1 hr/week*
- iv. *Forge Medical Student Innovation Group, Mentor, contact hours: 0.5 hrs/week*

b. Graduate Programs:

1. Training Programs:

*Instructor in the Masters of Science in Anesthesiology program. I developed the first critical care medicine rotation for all of the students and also a series of didactic lectures on the topic of critical care medicine the included "Critical Care Medicine", "Heart Failure", and "Acid-Base Disorders"*

2. School of Law:

*Co-chief instructor of **LAW 819-002, "Law, Medicine and Human Rights"**, a 2 credit hour seminar taught in the fall 2016 semester in the Emory School of Law*

3. Residency Programs:

*Served as instructor for residents in anesthesiology, emergency medicine, and surgery in the area of critical care medicine. I also sit on the residency review committee for the Department of Anesthesiology. Lecture topics "Septic shock", "Thyroid disease in critical care", "Mechanical heart support", "Pulmonary artery catheters" "Heuristics and biases in clinical reasoning", "delirium and agitation in critical illness", "biological variability".*

c. Other Categories

*I give regular lectures on a variety of critical care topics for respiratory therapy including "capnography" and "paralytics". I lecture students in the Emory critical care NP/PA program and also regular critical care lectures to the NP/PA practitioners in critical care. I teach those students how to read chest X-rays. I am invited to lecture in the Emory School of Law on the topic "Physician Assisted Suicide".*

*Emory Tibet Science Initiative:*

*I taught biology to Buddhist monks at Drepung Loseling Monastery in Southern India in June 2015. This initiative is a result of an invitation from His Holiness, The Dalai Lama, to bring science education to the education of the monks and represents the first time in 700 years that the curriculum has changed. I spent 2 weeks at the monastery teaching for 6 hours per day including microscopy lab teaching. I worked with a series of translators.*

23. Supervisory Teaching:

a. Residency Program:

*Fellowship director, Critical Care Medicine, Department of Anesthesiology 2013-present. I am chiefly responsible for the education and training of the critical care fellows in the Department of Anesthesiology. In addition to a multitude of critical care topics, I assist the fellows in abstract writing for a national critical care meeting, grand rounds for the Department of Anesthesiology and a quality improvement project for Graduate Medical Education Day that occurs annually in June.*

b. Other:

*I completed a summer internship at the Southern Center for Human Rights and also teach law students on the topic of lethal injection.*

- c. Emory University, Institute of the Liberal Arts, Interdisciplinary Studies  
*Thesis advisor and honors thesis committee member for student Katy Mayerson for the project: "Transcultural Pathways and the Literary Imagination: The Francophone Footprint in Imperial Russia and Postcolonial Africa"*

24. Lectureships, Seminar Invitations, and Visiting Professorships:

- "The Case of Samuel Golubchuk: Lessons about end-of-life decision-making?"*  
*A debate between Doctors Joel Zivot and Adrian Fine*  
*Wednesday, 18 March, 2009, 12h30-13h30. The Centre for Professional and Applied Ethics, The University of Manitoba, Winnipeg, Manitoba*
- "Cardiac output after the Pulmonary Artery Catheter" American Academy of Anesthesiologist Assistants Annual Meeting. Clearwater, Florida, April 2009*
- "End of Life in the ICU", Canadian Hospice Palliative Care Conference Annual Meeting, Winnipeg, Manitoba, Canada. October 2009*
- "Reductions in wait times for cardiac surgery may be harmful", poster presentation, Canadian Cardiovascular Society Annual Meeting, Edmonton, Alberta, Canada, October 2009*
- "Biological Variability" American Society of Anesthesiology, 2009-(I formed a panel to discuss biological variability. My panel consisted of an anesthesiologist, a mathematician, and a physicist.)*
- "End of life in the ICU: When the patient and doctor disagree..." Province wide health care ethics grand rounds, St. Boniface Research Centre, Winnipeg, Manitoba, Canada. January 2010*
- "Mostly dead is slightly alive, the problem with the dying process" Center for Ethics, Emory University, 2011.*
- "Anesthesiology Jeopardy!" American Academy of Anesthesiologist Assistants Annual Meeting, 2006, 2007, 2008, 2009, 2010, 2011*
- "Queuing Theory: Applications for Anesthesiology" American Academy of Anesthesiologist Assistants Annual Meeting, Destin, Florida, 2011*
- "Cardiac Anesthesia: Mostly we have it wrong" American Academy of Anesthesiologist Assistants Annual Meeting, Destin, Florida, 2011*
- "End of life in the ICU: When the patient and doctor disagree" American Academy of Anesthesiologist Assistants Annual Meeting, Destin, Florida, 2011*
- "Sedating the difficult patient" 5<sup>th</sup> Annual Southeastern Critical Care Summit. Emory University, Atlanta, GA, March 2012*
- "End of Life Care" IMPACT 2012 American Academy of Physician Assistants Annual Meeting, Toronto, Canada, June 2012*
- "Biosimilars, where do we stand?" Georgia Bio and the Georgia Association of Healthcare Executives. September 2012, Atlanta, Georgia*
- "Drug Shortages" Visiting Professor, Rutgers Business School, Newark, New Jersey, November 2012.*
- "Deactivating a permanent cardiac device is not physician assisted death", Pro-con debate Webinar, Society of Critical Care Medicine, November 2012.*
- "Drug shortages: The invisible hand of the Market" New Horizons in Anesthesiology, Vail, Colorado, February 2013*
- "Hey Anesthesia is a compliment, not an insult: the case for protocols" New Horizons in Anesthesiology, Vail, Colorado, February 2013*

*"Pro/Con: Death Panels in End of Life Care" New Horizons in Anesthesiology, Vail, Colorado, February 2013*

*"Hockey Violence and Killer Apes: Conflict Management in the Operating Room" New Horizons in Anesthesiology, Vail, Colorado, February 2013*

*"Drug Shortages, a failed market" American Society of Anesthesiology Legislative Conference Annual Meeting, April 2013, Washington, DC*

*"Lethal injection in the death penalty", Georgia Law Society and the Southern Center for Human Rights, Atlanta, Georgia, July 2014*

*"Identifying and managing futile care in the ICU", 10<sup>th</sup> Annual South Easter Critical care Summit, May 2016, Atlanta, Georgia*

*"Capital Punishment and Lethal Injection", Georgia State School of Law, Atlanta, Georgia, September 2016*

*"The Ethics of Drug Pricing", GEM annual meeting, Georgia Society of Ophthalmology, February 2017*

*"Burnout: don't thank me for normal work", American Academy of Anesthesiologist Assistants annual meeting, March 2017*

*"Too sick to be executed" American Academy of Anesthesiologist Assistants annual meeting, March 2017*

25. Invitations to National or International Conferences:

*University of Richmond Law Review, Allen Chair Symposium, 2014,  
"The Death Penalty in the United States".*

*Yale Law School, March 2015  
"Lethal injection"*

*The Fordham Law Review, Fordham Law School, February 2016  
"Criminal Behavior and the Brain: When Law and Neuroscience Collide"*

*American College of Correctional Physicians  
Fall Educational Conference  
October 2016  
Las Vegas, Nevada*

*"Physician participation in executions: A discussion of the Ethical Challenges and the Pros and Cons, a pro-con debate between Dr. Carlo Muso and Dr. Joel Zivot*

*"Prescribing Price: The Ethics, Science, and Business of Drug Development and Pricing"  
Panelist  
Emory Conference Center, November 2016  
Atlanta, Georgia  
Emory Center for Ethics*

*"The First International Emory Tibet Symposium: Bridging Buddhism & Science  
Drepung Loseling Monastery  
Karnataka State, India"  
Panelist: What is life and what are its origins?*

Declaration of Joel Zivot, MD

1. I received my Doctor of Medicine from the University of Manitoba, Canada, in 1988.  
From 1989–1993, I was a resident in Anesthesiology at the University of Toronto, Department of Post Graduate Medical Education, and from 1993–1995, I completed an additional residency in Anesthesiology and a Fellowship in Critical Care Medicine at the Cleveland Clinic Foundation, Department of Anesthesiology in Cleveland, Ohio.
2. I hold an active medical license from the State of Georgia and have held unrestricted medical licenses in Ohio, the District of Columbia, Michigan, and the Canadian provinces of Ontario and Manitoba. I also hold an active license to prescribe narcotics and other controlled substances from the federal Drug Enforcement Administration (DEA).
3. I hold board certification in Anesthesiology from the Royal College of Physicians and Surgeons of Canada and the American Board of Anesthesiology. I am also board certified in Critical Care Medicine from the American Board of Anesthesiology.
4. I have served as the Medical Director of the Cardio-Thoracic Intensive Care Unit and the Fellowship Director for Critical Care Medicine at Emory University Hospital. I am an Associate Professor of Anesthesiology and Surgery at the Emory University School of Medicine and an adjunct Professor of Law at Emory University Law School.
5. I have practiced anesthesiology and critical care medicine for twenty-two years, and, in that capacity, I have personally performed or supervised the care of more than 42,000 patients.
6. I am, by reason of my experience, training, and education, an expert in the fields of anesthesiology and critical-care medicine. The opinions that follow are within my field of

expertise and are stated to a reasonable degree of medical and scientific certainty unless otherwise noted. I believe that my ethical duties prevent the participation in lethal injection. The opinions below express my medical opinion regarding the risks of the lethal-injection procedure designed by the state and should not be construed as an attempt to assist the state in developing a better way to perform executions.

7. Counsel for Marcel Williams retained me for the purpose of reviewing his pertinent medical records and to perform a physical examination based on those records. The medical evaluation of Mr. Williams was to determine if any of his medical conditions would cause a unique and particular danger of significant pain during the State of Arkansas's planned lethal injection.
8. I have previously reviewed the State's lethal-injection protocol entitled "Attachment C." I previously authored a declaration setting forth my concerns that the lethal-injection protocol is insufficient to anesthetize the prisoners against the pain of the second and third drugs and lacks safeguards to prevent a tortuous death or sub-lethal injury.
9. Based on my review of Marcel Williams's medical records and my physical exam, I believe that if the State of Arkansas attempts its lethal-injection protocol as written that it is unlikely that the State will succeed in killing Mr. Williams. The more likely result will be that he is left with disabling, irreversible injuries. Specifically, failure to adequately or promptly revive Mr. Williams in the setting of a failed execution attempt will result in permanent injury to Mr. Williams, including brain damage and other organ failure or injury. If the Arkansas lethal-injection protocol causes the death of Mr. Williams, the mechanism of that death will be hypoxia as a consequence of chemical paralysis. Mr.

Williams will not be insensate after his Midazolam injection or he will suffer pulmonary edema. Mr. Williams will experience his death as choking and suffocating.

10. I evaluated Marcel Williams on March 23, 2017, at the Varner Supermax Unit in Grady, Arkansas. Mr. Williams is a forty-six-year-old African-American man weighing approximately 390 pounds. I received a detailed medical history from Mr. Williams, who was an adequate historian. I performed a physical exam.

11. Based on my review of his medical records and the physical exam, I find that Mr. Williams suffers from diabetes, hypertension, hypertriglyceridemia, hypercholesterolemia, morbid obesity, and sleep apnea. He is being treated with the following medications by the ADC for these conditions: Low Dose Aspirin, 81 mg once per day, Amlodipine Besylate 10 mg once per day, Furosemide 40 mg once per day, Atenolol 100 mg twice per day, Atorvastatin 20 mg or 40 mg at bedtime, Potassium Chloride 10 MEQ extended release tablet once per day, Humulin 70/30 injections 40 units in the AM and 30 units in the PM, Gabapentin 600 mg three times a day, Glipizide 10 mg twice a day, and Meloxicam 15 mg once a day.

12. Each of these conditions, on their own, and in combination, will complicate the State's "one size fits all" execution procedure and lead to a torturous experience for Mr. Williams.

13. **Diabetes.** Mr. Williams is a brittle diabetic. He has poor glycemic control and has to be watched very closely. He is taking insulin injections twice a day, 40 units in the morning and 30 units in the evening. If Mr. Williams's glycemic levels are not closely monitored and appropriate treatment provided in advance of the lethal-injection procedure, as well as throughout the preparatory phase, he could experience a blood-sugar crisis. Such a

crisis can have serious and permanent consequences, including brain injury. If Mr. Williams's blood sugar is not closely regulated, he also will experience cognitive effects manifesting as confusion, abnormal behavior (such as belligerence), visual disturbances, seizures, or loss of consciousness.

14. **Hypertension.** Mr. Williams is being treated with a diuretic for his hypertension. He has been prescribed Potassium Chloride to counteract the potassium deficiency secondary to diuretic therapy. Because his potassium levels are already low, it is possible that the administration of Potassium Chloride, which the State intends as the lethal chemical, will not actually kill him.

15. **Morbid Obesity.** Mr. Williams has a body mass index of 48.74. Mr. Williams's large size makes it more likely that the execution will fail and Mr. Williams will be left alive, but disabled from the attempt. His large size makes venous access more difficult. If the state is unable to find adequate and reliable venous access, drug administration will be compromised. As I have previously described in another affidavit, Midazolam will not provide the anesthetic effect contemplated in the lethal-injection protocol. Painful sensations will not be blunted in any significant way when the paralytic and Potassium Chloride are injected.

16. **Sleep Apnea.** Mr. Williams's size makes it more likely that he will experience respiratory distress during the lethal-injection procedure. Mr. Williams suffers from obstructive sleep apnea (OSA), a disorder that causes interruptions in breathing during states of reduced consciousness. OSA is more likely to occur in obese males over the age of forty.

17. Sedation of a person with OSA is a dangerous practice that is often avoided in clinical settings. Even minimal sedation, such as from the Midazolam administration, can cause airway obstruction and cessation of efficient breathing. Mr. Williams will suffer a fall in blood oxygen at a rate faster than an individual of normal weight. As a consequence, this blood oxygen reduction will result in organ damage to the brain and other vital organs in a manner that will precede death by execution. Should the execution fail, and it is likely to do so, Mr. Williams will survive with brain damage and other new significant medical problems.

18. In my opinion, if the Arkansas lethal-injection protocol is carried out as written, Mr. Williams will suffer respiratory distress, suffer hypoxia, and is at serious risk for irreversible organ damage.

I swear that the foregoing is true and correct to the best of my knowledge under penalty of perjury under the laws of the United States and the State of Arkansas.

**DECLARATION OF JOEL ZIVOT, MD**

1. I received my Doctor of Medicine from the University of Manitoba, Canada, in 1988.  
  
From 1989–1993, I was a resident in Anesthesiology at the University of Toronto, Department of Post Graduate Medical Education, and from 1993–1995, I completed an additional residency in Anesthesiology and a Fellowship in Critical Care Medicine at the Cleveland Clinic Foundation, Department of Anesthesiology in Cleveland, Ohio.
2. I hold an active medical license from the State of Georgia and have held unrestricted medical licenses in Ohio, the District of Columbia, Michigan, and the Canadian provinces of Ontario and Manitoba. I also hold an active license to prescribe narcotics and other controlled substances from the federal Drug Enforcement Administration (DEA).
3. I hold board certification in Anesthesiology from the Royal College of Physicians and Surgeons of Canada and the American Board of Anesthesiology. I am also board certified in Critical Care Medicine from the American Board of Anesthesiology.
4. I have served as the Medical Director of the Cardio-Thoracic Intensive Care Unit and the Fellowship Director for Critical Care Medicine at Emory University Hospital. I am an Associate Professor of Anesthesiology and Surgery at the Emory University School of Medicine and an adjunct Professor of Law at Emory University Law School.
5. I have practiced anesthesiology and critical care medicine for 22 years, and, in that capacity, I have personally performed or supervised the care of more than 42,000 patients.
6. I am, by reason of my experience, training, and education, an expert in the fields of anesthesiology and critical care medicine. The opinions that follow are within my field of

expertise, and are stated to a reasonable degree of medical and scientific certainty unless otherwise noted. I believe that my ethical duties prevent the participation in lethal injection. The opinions below express my medical opinion regarding the risks of the lethal injection procedure designed by the state and should not be construed as an attempt to assist the state in developing a better way to perform executions.

7. At the request of counsel, I reviewed Arkansas's lethal injection procedure, titled "Attachment C." Based on the review of that document, and my medical training and experience, I offer the following opinions.
8. The state of Arkansas uses a three-drug protocol involving Midazolam, Vecuronium Bromide, and Potassium Chloride.
9. The use of Midazolam is an inappropriate drug for lethal injection. In a surgical setting it is used as a sedative and in combination with other drugs. It is not used on its own to induce general anesthesia and is not capable of rendering a patient unaware or insensate to pain. The company that created Midazolam never contemplated that it would be used in the execution of prisoners.
10. Midazolam is prepared as a liquid and the solution is rendered at a pH of 2.5-3.5 Strong acids like Midazolam risk precipitation when mixed with weak acids or bases. The pH of normal saline is 5-6 and the mixing of Midazolam with normal saline runs the real risk of the formation of a salt precipitate. This precipitate compound will risk the obstruction of the intravenous preventing any further drug administration. Midazolam precipitate is pharmacologically inactive and will lower the total amount of Midazolam delivery in a completely unpredictable fashion.

11. Midazolam injection in large doses as contemplated in the Arkansas lethal injection protocol has been associated with paradoxical hyper-reactivity reactions. This paradoxical reaction will be seen as intense agitation and movement. In this state, increasing the dose of Midazolam will only further exacerbate this agitation.
12. Vecuronium Bromide is a paralytic that, when administered, blocks the capacity of movement in a particular group of muscles known as skeletal muscles. Paralytics act only on skeletal muscles and have no effect on smooth or cardiac muscle. The inability to breathe as a consequence of Vecuronium induced muscle paralysis would be akin to the experience of suffocation. A person would still have the desire and need to breathe but would be completely unable to do so. Midazolam will not in any way block the sensation for the need to breathe.
13. Potassium, available as Potassium Chloride, is a naturally occurring element necessary for normal bodily functions in a number of human physiological systems. Of importance here is the effect of Potassium Chloride on the heart. As potassium rises outside of the heart cell, depolarization is increasingly blocked until a point at which the heart cell is essentially held in place and cannot contract. At this point, the heart ceases to function in any capacity. The lack of heart muscle contraction causes the blood pressure to drop. The lack of blood flow, which carries oxygen to each cell in the body, ceases and progressive and rapid multi-organ failure ensues. Potassium Chloride, when injected into the body, produces an intense burning sensation of the veins. Midazolam is not a pain reliever in any dose and is insufficient to prevent the experiencing of burning by the prisoner.

14. As a general matter, my review of the protocol shows that the execution process involves multiple complex tasks that, to be done without risking serious injury to the prisoner, require a high-level of skill and training.
15. I am aware the Arkansas Department of Correction has a supply of Midazolam that lists the expiration date as April 2017. My understanding of expiration dates and drug potency is based on my years of medical training and practice. An expiration date is an estimate of the date at which the drug manufacturer expects that the drug will either change or transform into something that 1) loses its efficacy or 2) becomes poison. As a practitioner, I would not use a drug in the month at which it is stated to expire. I do not feel confident that it can be relied upon to perform its expected function.
16. Arkansas's lethal injection protocol calls for the preparation of syringes at a different location in advance of the execution. In my opinion, this practice creates a needless risk of contamination or degradation of the chemicals. An ampule of Midazolam, or any other sterile injectable compound, is sterile while it is in the ampule. As soon as the seal is broken, it is no longer sterile. In my practice, I would insert the syringe into the ampule, draw the solution into the syringe, and inject it immediately. The delay used by the protocol creates the risk that the drug will be mislabeled, contaminated, and at increased risk of falling out of solution as a precipitate.
17. Setting of IVs is crucial to the successful delivery of a substance into the circulatory system. Multiple or unsuccessful attempts to set an IV can cause perforations in the veins and infiltration of the tissue surrounding the vein. When this happens, the substance that was meant to circulate throughout the body will instead pool in the tissue and not reach the systems of the body necessary for it to have its intended effect.

18. Insertion of a central line is a complicated medical procedure that is not done by nurses, or EMTs. A physician's assistant may insert a central line under the supervision of a physician. The central line accesses the circulatory system through a large vein in the neck, chest, or groin. The vein accessed through a central line is not visible to the eye through the skin. In order to safely place a central line in a clinical setting, I would use an ultrasound machine and a central line kit. The lethal injection protocol allows for the placement of a central line with no way of determining where the prisoner's vein is and no clear expertise within the personnel of the execution team. Blindly stabbing at the neck, chest, or groin could hit an artery or a nerve, causing pain and blood loss. A misplaced central line may be hard to verify and an individual placing this line may be under a false impression that the line is properly positioned. In a clinical setting, a follow up chest x-ray is required prior to using a central line that has been placed in the chest to verify the proper placement and rule out the presence of a collapsed lung. Such lung collapse when occurring can lead to a tension pneumothorax that can be in itself fatal. Death in this circumstance would be as a consequence of suffocation and cardiovascular collapse.
19. The amount of liquid Midazolam called for in the protocol is roughly a third to a half of the volume of liquid in a standard Styrofoam cup. The plan calls for it to be injected in two syringes. The syringes will have to be quite large. Pushing that amount of liquid out of such a large syringe creates a great amount of pressure at the point where the liquid exists the syringe. A vein can only withstand so much pressure. When a large amount of fluid runs into a vein, especially at a rapid rate, the vein can rupture. In a clinical setting 2-4 mg would normally be administered over a minute. The Arkansas lethal injection

protocol intends to inject 10-20 times this quantity over the same length of time. A real danger exists to vein patency and serious pain on injection. In a clinical setting, in order to modulate the speed of the injection, and prevent rupture, I would sit by the side of the patient and look at their vein while I was plunging the drug. I understand that the Arkansas lethal injection procedure calls for the person plunging the syringe to be in a separate room from the inmate. Viewing a vein through a window will not allow a person to have adequate sight of the vein in order to prevent rupture and properly modulate the injection.

20. The protocol purports to require that the inmate be determined to be “unconscious” after the administration of the Midazolam. “Unconscious” is an exceedingly vague term in scientific circles. The protocol does not provide any guidance to the execution team to judge whether the prisoner is “unconscious.” General anesthesia is not same thing as “unconsciousness.” General anesthesia is a state in which a person can undergo noxious stimuli and 1) does not experience it in the moment and 2) does not recall it. In contrast, a person can be seemingly unresponsive and still experiencing stimulus. Certain noxious stimuli will lift a person from what might at first glance appear to be a state of unresponsiveness. Many people have had the experience of not being awoken by their alarm clock but hearing the alarm clock in their dreaming state. An outside observer would have no way of knowing that the sleeping person was hearing the alarm clock. This example shows that simple observation is insufficient to determine levels of anesthesia and has no capacity to confirm the sort of unresponsiveness contemplated by the lethal injection protocol.

21. An anesthesiologist is as much of an expert in consciousness as you can find. However, neither I, nor my peers, would ever attempt to assess anesthetic level by visual inspection alone. In a hospital setting, I would not give the okay for a surgeon to cut a patient just by looking at them. Instead, I use equipment to measure physiological signs such as heart rate, blood pressure, brain activity, before allowing painful procedures to proceed. In addition, it is important to continually monitor anesthetic depth as it is dynamic. There may be subtle physiological changes in the body that show that a person is reacting to painful stimuli. For example, if the heart rate increased from 60 bpm to 70 bpm, that would be a signal that I may need to give additional medicine. The protocol provides for no modification based on inmate signs and symptoms after the 500 mg of Midazolam has been injected. The well-known ceiling effect of Midazolam renders additional dosage completely superfluous.
22. It is my professional opinion that because the protocol uses a sedative rather than an anesthetic, fails to use personnel trained in assessing anesthetic depth, fails to instruct the personnel on signs of consciousness, and fails to provide equipment necessary to judge anesthetic depth, there is a serious risk that the prisoner will be able to feel and experience the injection and the effects of the Vecuronium Bromide and Potassium Chloride.
23. I have a great concern that the protocol does not provide a plan for resuscitation or antidote of the chemicals in the event that the execution fails. Based on my training and experience, I expect that the prisoner will never reach general anesthesia with the injection of Midazolam. I think a likely scenario is that after the first injection of the Vecuronium Bromide the prisoner will move, gasp, or otherwise show signs of

awareness. If this happens, and the Vecuronium Bromide is not reversed, the prisoner will suffocate. Vecuronium Bromide does have an antidote, Sugammadex. A safeguard in the event that the prisoner shows any signs of movement that will indicate awareness or “consciousness” would be an injection of Sugammadex.

24. It is also possible that the Midazolam may need to be reversed. Midazolam on its own is not a fatal drug, but it can cause airway collapse or cause confusion and lack of awareness in the patient that would cause them to fail to clear their own airway and choke. Midazolam can be reversed with Flumazenil.

25. Potassium Chloride can also be reversed through the sequential injection of insulin, D-50 (dextrose and water), and calcium chloride.

26. In order to maximize the effects of the antidotes, the prison would also need to have on hand qualified personnel to start life-saving measures and have immediately available oxygen and a mask, an Ambu bag, a nerve stimulator to measure the degree of neuromuscular blockage, cardiac monitoring, pulse oxymeter and a blood pressure cuff. If the inmate is a diabetic, the prison would also need equipment and medicine to measure and treat abnormal blood sugar.

I swear that the foregoing is true and correct to the best of my knowledge under penalty of perjury under the laws of the United States and the State of Arkansas.

## Texas executes Fort Worth man who killed a father and an infant

The state carried out its fourth execution of the year, putting to death 61-year-old James Bigby. He was convicted in the 1987 murders of his friend and a 4-month-old during a killing spree in Fort Worth. [f](#) [t](#)

BY **JOLIE MCCULLOUGH** MARCH 14, 2017 7:23 PM

Death row inmate James Bigby, sentenced to death for the 1987 murders of Michael Trekell and Trekell's 4-month-old son, Jayson Kehler.  TDCJ

Editor's note: This story has been updated to reflect the execution.

After nearly 26 years on Texas' death row and two sentencing trials, a man convicted in the death of his friend and a 4-month-old during a Fort Worth killing spree was executed Tuesday evening.

James Bigby, a 61-year-old with a history of paranoid schizophrenia, was convicted in the 1987 murders of Michael Trekell, 26, and Trekell's infant son, Jayson Kehler, according to court filings. Bigby was also accused of killing Calvin Crane and Frank Johnson, but he wasn't tried in those murders.

Bigby told police he killed the men because he believed they were conspiring with his employer to undermine a worker's compensation case he had filed. He said he didn't know why he killed the baby.

The Texas Tribune thanks its sponsors. Become one.

**RICE EDUCATION ENTREPRENEURSHIP PROGRAM**

Just after 6 p.m. Tuesday, Bigby lay on the gurney in Texas' execution chamber in Huntsville. He was injected with a lethal dose of pentobarbital at 6:17 p.m. and pronounced dead 14 minutes later, according to the Texas Department of Criminal Justice. He had no witnesses there on his behalf.

In his final statement, Bigby apologized to Grace Kehler, the mother of the infant he killed, and the families of Crane and Johnson.

"I'm sorry it went on for a terribly long time ... I hope that my death will bring you peace and closure," he said. "... I hope that you could forgive me, but if you don't I understand. I don't think I could forgive anyone who would of killed my children."

Aside from his statement, Bigby also wrote a letter to Kehler, apologizing again, telling her he tried to drop his appeals earlier, and blaming his old employer, Frito-Lay, for his actions.

“Frito Lay caused my actions and they alone are to blame for what I did and it was not about money ... attempts to kill me followed when I refused to settle or drop my legal suit,” he wrote.

Bigby had not filed any late appeals before his execution, and, even though he had been on death row for more than a quarter of a century, Tuesday was the first execution date he received, according to his lawyer, John Stickels.

The Texas Tribune thanks its sponsors. Become one.

Why is the UT Tower... •

“I believe that [Bigby] is resigned to the fact that he’s going to be executed, and I think he wants it over with,” Stickels told The Texas Tribune on Friday.

The killing spree started on the evening of Dec. 23, 1987, when Bigby and Trezell were watching television and making dinner, according to court filings. Bigby shot Trezell and attempted to suffocate 4-month-old Jayson with cellophane before drowning him in the sink.

Later that night, he visited Crane, another friend. Bigby convinced Crane to drive around to investigate whether Bigby was being followed. In the car, Bigby told Crane to pull over, and he shot him and left him dead on the road, according to an opinion from the Texas Court of Criminal Appeals. Then, around 3 a.m. on Christmas Eve, the opinion said, he drove Crane’s car to Johnson’s house and shot him several times when he opened the door.

He was arrested two days later after a SWAT standoff at a local motel. The mother of the infant, Grace Kehler, told police she knew Bigby had been hospitalized for mental illness more than once and that he had said before he wanted to go out “in a blaze of glory,” according to court documents.

During his trial, an insanity defense was shot down, and, at one point during a recess, Bigby got a hold of a gun Judge Don Leonard kept at his bench, went into Leonard's chambers and tried to take him hostage in an apparent escape attempt, court records said. Bigby was eventually subdued, and Leonard continued to preside over the trial.

"There's a lot of things about this case that, over time, made the news and made this a big case," said Helena Faulkner, Tarrant County assistant district attorney who has handled the Bigby case after his conviction.

Bigby spent a long time on death row because he was granted a new sentencing trial in 2005. The U.S 5th Circuit Court of Appeals tossed out his original death sentence because new sentencing procedures required juries to decide whether any mitigating evidence – like Bigby's mental illness – qualified a capital murder convict for the lesser sentence of life without parole. When Bigby was first sentenced to death in 1991, jurors were told they could "nullify" any such evidence.

During his original trial, the defense brought up Bigby's schizophrenia, telling the jury that he had various diagnoses and been hospitalized multiple times. A psychiatrist testified that "at the time of the offense ... Bigby was suffering from [this] serious severe mental illness and was not aware of the difference between right and wrong."

The Texas Tribune thanks its sponsors. Become one.

Still, after considering this evidence during the second trial, the jury again handed down a death sentence, essentially resetting the appeals process after Bigby had already lived 15 years on death row.

Under current law, mentally ill convicts can be sentenced to death (though at least one Texas lawmaker is hoping to change that). Defendants can present the illness as mitigating evidence, but ultimately, it is in the jurors' hands. In Bigby's

case, the jury did not believe his schizophrenia was a reason to give him life without parole instead.

“Mr. Bigby was never found to be insane,” said Faulkner. “The jury rejected any claims that he had any type of mental illness or defect that would warrant not imposing a sentence of death.”

Bigby’s execution was the second from Tarrant County this year. The next two executions scheduled are also from Tarrant. Faulkner said the uptick in scheduled executions is because cases were delayed while the county did a review of capital cases and DNA analysis.

The execution was the fourth for Texas in 2017. Last week, the state put to death Rolando Ruiz after hours of uncertainty while the U.S. Supreme Court pondered pending appeals. Outside of Texas, only Virginia and Missouri have held executions this year — one in each of those states.

#### **More on the death penalty:**

- State Rep. Toni Rose, D-Dallas, has filed long-shot House Bill 3080, which would prevent offenders proven to have had a severe mental illness at the time of their crime from being sentenced to death in a capital murder case.
- Texas executed hitman Ronaldo Ruiz late last Tuesday, 25 years after he killed a San Antonio woman for \$2,000.

TMF 01/01.00 GENERAL PROVISIONS

TMF 01/01.01 Purpose of Technical Manual

- A. The purpose of this Technical Manual is to provide the Department's policies, procedures and post orders for planning and carrying out the sentence for the execution of a person convicted of a capital offense.
- B. This chapter shall include policies and procedures related to:
  - 1. planning and preparation;
  - 2. execution of the sentence;
  - 3. post-execution requirements and process;
  - 4. security and control;
  - 5. witnesses and official visitors
  - 6. news media access limitations and briefing;
  - 7. delays, stays, and commutations;
  - 8. support services functions;
  - 9. briefing and training; and
  - 10. documentation, review and audit.
- C. Post orders are included for the staff and others involved in the execution planning, implementation, documentation and review.

TMF 01/01.02 Cross Reference

UCA 26-4-7	Deaths over which medical examiner has jurisdiction.
BPPPM 3.12	Commutation Hearings for Death Penalty Cases

TMF 01/01.03    Policy

It is the policy of the Department that:

- A.    execution of persons sentenced to death under Utah law by a court of competent authority and jurisdiction be carried out in the legally prescribed manner;
- B.    the Department shall make every effort in the planning and preparation of the execution event to ensure that the execution process:
  - 1.    adheres to the intent of the law;
  - 2.    is handled in a manner which minimizes negative impact on the safety, security and operational integrity of the prison;
  - 3.    accommodates the need for public access to information concerning the event;
  - 4.    reasonably addresses the privacy interests of those persons for whom the law, Department policy or commonly-held principles of decency require such privacy;
  - 5.    provides sufficient staffing to ensure that unplanned problems can be accommodated and overcome;
  - 6.    prepares for stays of execution, commutations and other delays in the execution count-down;
  - 7.    provides an opportunity for interested persons to exercise their First

REVISED 06/10/10

TMF 01/01 - pg.3

Amendment rights to demonstrate for or against capital punishment in a lawful manner;

8. ensures a firm and adequate response to unlawful civil disobedience, trespass, or other violations of the law by persons attempting to disrupt, prevent or otherwise frustrate the lawful process associated with the execution; and
  9. anticipates and provides for sufficient support needs for the execution and the prison as a whole;
- C. the Department shall arrest and encourage the prosecution of persons, including but not limited to, those who:
1. violate 77-19-11 UCA prohibitions against filming, taping, sketching, broadcasting or otherwise electronically documenting the death of the condemned;
  2. trespass or otherwise enter upon prison property without proper permission and clearance from the Department;
  3. participate in unlawful demonstrations;
  4. unlawfully attempt to or disrupt, prevent or otherwise interfere with the execution;
  5. being inmates, are involved in disruptive, assaultive or other proscribed behavior; or
  6. unlawfully threaten, intimidate or terrorize persons involved in the execution process;
- D. staff involved in the execution make every effort within the requirements and limits of these policies and procedures and the laws of the State of Utah to:
1. minimize the anxiety and negative impact of the execution on the victim's and inmate's family and friends witnessing the execution;

REVISED 06/10/10

TMF 01/01 - pg. 4

2. display appropriate levels of professionalism, restraint, and courtesy in interaction with witnesses, demonstrators, news media, and other non-staff persons during the execution process; and
  3. not permit interactions, emotion or intimidation to prevent their proper handling of missions and duties;
- E. the Department review the adequacy and/or the performance of:
1. the policies and procedures employed;
  2. the Department staff members involved in the execution;
  3. members of allied agencies assisting with the execution; and
  4. statutes and other authority impacting the execution; and
- F. the evaluation of each execution event be used to improve operational procedures for the future.

TMF 01/01.04 Definitions

<b>allied agency</b>	refers to another criminal justice agency
<b>Attorney General's Office</b>	staff at the Attorney General's Office or any designated contract attorney approved to carry out the responsibilities described in this technical manual
<b>attorney of record</b>	the condemned inmate's attorney and other assisting legal personnel

broadcast media refers to radio and television media

civilians any person not a member of the Department, allied law enforcement agency, nor mutual aid agencies

Command Post Director the member who is assigned to supervise the command post functions and activities

commutation the change from a greater to a lesser punishment after conviction

drug injection box or boxes each of which shall contain one complete set-up for lethal injection; with or without drugs

execution building refers to the area containing the execution chamber

execution chamber the immediate enclosed areas containing the condemned at the moment of execution

mutual aid	agencies or personnel that provide medical, fire suppression, and other support services to the Draper site
news magazines	magazines having a national circulation being sold by news stands to the general public and by mail circulation
news media	collectively refers to those involved with news gathering for newspapers, news magazines, radio, television or news services
news media members	persons over the age of eighteen who are primarily employed in the business of gathering or reporting news for newspapers, news magazines, national or international new services or radio or television stations licensed by the Federal Communications Commission
newspaper	for purposes of this chapter, the publication:

REVISED 06/10/10

TMF 01/01 - pg.7

1. circulates among the general public;
2. publishes legal notices in the community in which it is located or the area to which it distributes; and
3. contains items of general interest to the public such as political, commercial, religious or social affairs

**pardon** an act of grace by an appropriate authority exempting a person from punishment for a crime

**press** refers to the print media; also see "news media", generally

**reprieve** the temporary suspension of the execution

**respite** see "reprieve"

REVISED 06/10/10

TMF 01/02 - pg. 10

TMF 01/02.00 PRE-EXECUTION CHECKLIST

TMF 01/02.01 General Provisions

A. Purpose of Chapter

1. The purpose of this chapter is to provide a checklist of procedures and events which should occur between the issuing of the death warrant and 24 hours prior to the execution.
2. Full detail will not be provided for each procedure or event in this chapter. For detail, reference will be made to Chapter TMF 01/05 and other chapters where such detail may be found.
3. This chapter will be divided to cover the following time periods:
  - a. prior to the death warrant being issued;
  - b. issuing of death warrant to 30 days prior to the execution;
  - c. 14 to 29 days prior to the execution;
  - d. 7 to 13 days prior to the execution;
  - e. 3 to 6 days prior to the execution; and
  - f.

B. Policy

1. It is the policy of the Department that the count-down to the execution be completed in a systematic manner to ensure that all procedures and events which are necessary in the preparation of the execution are completed in a timely manner.

REVISED 06/10/10

TMF 01/02 -- pg. 11

2. This count-down, though offering flexible application, should be observed and followed as written unless deviation or adjustment is required for carrying out the execution.
3. The Executive Director/designee may direct deviation from or adjustment to the policies and procedures in this manual at any time when necessary for the good of the Department's mission in carrying out the execution. Approval for the changes shall be documented in writing.

TMF 01/02.02 Prior to Receiving Death Warrant

A. Execution Planning Team

When it appears an execution is imminent, prior to the issuing of the death warrant, the Warden shall select an Execution Planning Team. The Team may include:

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.
- 8.
- 9.
- 10.
- 11.

B. Involve Additional Planning Assistance

Other persons who may be invited to attend on a meeting-by-meeting basis, include:

1. a representative or representatives from the Attorney General's Office;
2. a representative from the office of the County Attorney which prosecuted the condemned;
3. a representative from the Board of Pardons and Parole;
4. representatives from the law enforcement agencies which investigated the case involving the condemned;
5. representatives from law enforcement and other allied agencies who may be asked to assist with various aspects of the execution; and
6. any other persons deemed necessary or appropriate by the Executive Director/designee, DIO Director or Warden.

C. Develop Assignments

When it is reasonable to believe a death warrant will be issued in the near future, the Execution Planning Team and those additional persons deemed appropriate shall meet to:

1. review the Execution Plan (TMF 01);
2. make assignments for the pending execution;
3. develop a schedule of events;
4. assign responsibilities related to revision of the Execution Plan, if needed; and
5. take any other steps necessary to prepare for the issuance of the

REVISED 06/10/10

TMF 01/02 - pg. 13

deathwarrant and begin the execution count down.

D. Identify Possible Execution Dates

1. The Execution Planning Team shall review the Department's schedule of events and identify favorable and unfavorable dates within the period of time in which the execution may be ordered.
2. Information concerning the Department's requests/concerns related to scheduling shall be communicated to the Attorney General's Office to be communicated to the sentencing court.

TMF 01/02.03 Receipt of Death Warrant to Thirty Days Prior to Execution

Upon receipt of a death warrant from a competent court, the following procedures shall be initiated and should be completed at least 30 days prior to execution.

A. Receipt of Death Warrant

1. Upon receipt of the death warrant and as soon as practical thereafter, a meeting of the Execution Planning Team shall be scheduled by the Warden.
2. The Execution Planning Team shall then coordinate the implementation of the procedures set forth in this technical manual under the direction of the Warden.

B. Time and Place of Execution

1. Date

The date for the execution shall be that day set by the sentencing judge.

2. Time

"The Department of Corrections shall determine the hour, within the appointed day, at which the judgment is executed."  
77-19-6(3)

3. Location

C. Condemned Inmate's Choice of Witnesses

1. The condemned inmate shall be informed that he may designate religious representatives, friends, or relatives not exceeding a total of five in number to witness the execution. 77-19-11 (2)  
(d)UCA

2. Refer to TMF 01/07.

D. Disposition of Personal Property

1. The inmate shall be contacted for instructions concerning the disposition of his personal property.

2. Refer to TMF 01/05.06.

E. Disposition of Funds in Inmate's Account

1. The condemned shall be contacted for instructions concerning the disposition of the funds in any accounts controlled or administered by the prison or Department.

2. Refer to TMF 01/05.06 and TMF 01/05.07.

F. Organ Donation

Organ donation is not an option for condemned inmates.

G. Disposition of Body

1. The condemned shall be asked for instructions concerning the disposition of his remains following the execution.
2. Refer to TMF 01/05.08.

H. Designate Persons Required to Assist with Execution

1. Those persons necessary to carry out the execution shall be identified.
  - a. The Executive Director/designee, DIO Director or Warden shall be responsible for identifying, selecting and obtaining the services of the executioners. See TMF 01/05.03 and TMF 01/05.04.
  - b. The Public Affairs Director shall be responsible for coordinating the notification of the news media and selection of individual news media witnesses. See TMF 01.08.02.
  - c. The Warden shall be responsible for designating those persons necessary to carry out and support the execution.
2. Redundancy in assignment may be developed for all vital or important positions. The Warden, DIO Director, and Executive Director/designee shall determine which positions require back-up and shall ensure adequate coverage is provided.
3. "Compensation for members of a firing squad or persons administering intravenous injections shall be in an amount determined by the director of the Division of Finance." 77-19-10 (4)UCA
  - a. The Department shall negotiate with the executioners and Division of Finance the fee to be paid to the executioners.

b.

c.

I. Other Approved Witnesses

The Executive Director/designee shall designate other approved witnesses as outlined in TMF 01/07.03.

J. Contact with State Medical Examiner

1. Contact shall be made with the State Medical Examiner to coordinate the Medical Examiner's role.
2. The Medical Examiner shall be requested to provide direction concerning:
  - a. transfer of custody of the executed inmate from the Warden to the Medical Examiner;
  - b.
  - c.
3. Refer to TMF 01/04.

K. Support Services

1. The Support Services Deputy Warden coordinates the functions of Support Services Section Personnel.
2. Support Services units shall include, but not be limited to:

REVISED 06/10/10

TMF 01/02 - pg. 17

- a. the Food Services Unit (See TMF 01/05.19); and
  - b. the Maintenance Unit (See TMF 01/05.18).
- L. The Correctional Medical Administrator coordinates functions of the Medical Unit personnel. (See TMF 01/05.18)
- M. Brief Prison Administrators
  - 1. It is necessary to maintain as nearly as possible a normal prison operation during the execution and the activities preceding and following the execution.
  - 2. Prison administrators should be briefed as appropriate on plans for the execution, restrictions on access, crowd control, additional security procedures, etc., on an on-going basis.
  - 3. Briefings should begin as soon as plans begin to evolve which will effect the general prison operation, and should continue until the operation returns to normal.

TMF 01/02.04 Twenty-Nine to Fourteen Days Prior to the Execution

A. Witnesses

- 1. The Executive Director/designee shall develop a final list of witnesses consistent with the requirements of 77-19-11 (2) and (3) UCA.
- 2. Any changes to the Government witness list shall be approved by the Executive Director.
- 3. Each witness shall be required to sign an agreement prior to being cleared and added to the witness list.

4. The Executive Director may make additions to the witness list when necessary.

5. Refer to TMF 01/05.05.

B. News Media

1. Witness requests shall be received and processed by the Public Affairs Office in accordance with TMF 01/08.02.

2. Alternate coverage/accommodations for members of the press selected to be present at alternate site shall be handled consistent with TMF 01/08.03.

C. Inmate Property and Accounts

1. Finalize arrangements for disposition of the condemned inmate's property and accounts 14 days prior to execution.

2. Refer to TMF 01/05.06 and TMF 01/05.07.

D. Disposition of Body

1. Finalize, if possible, decision concerning disposition of the body.

2. Refer to TMF 01/05.08.

E. Selection of Executioners

1. Finalize the selection of executioners and their back-ups.

2. Refer to TMF 01/05.03 and TMF 01/05.04.

F. Medical/Medical Examiner

1. Finalize arrangements for a physician consistent with 77-19-10UCA.

2.

REVISED 06/10/10

TMF 01/02 - pg.19

3. Refer to TMF 01/C5.08.

G. Practices and Rehearsals

1. Initiate practice sessions for persons involved in the various parts of the execution event.
2. Not all of the persons involved will practice together. Individual teams will practice as units, with inter-team practices scheduled, as necessary.

TMF 01/02.05 Thirteen to Seven to Days Prior to Execution

A. Inmate Property/Accounts

All paperwork on disposition of property and accounts should be completed at least seven days prior to the execution.

B. Disposition of Body

All paperwork should be completed at least seven days prior to the execution.

C. Food Services

1. At least seven days prior to execution, contact the condemned inmate to arrange last meal. TMF 01/05.18.
2. Determine with the Warden, Draper Site Security Deputy Warden, and Public Affairs Director what beverage and food service will be needed at the various locations where staff will be working.

D. Purchase of Substances to Be Used in Lethal Injection

1. Purchase substances to be used in the execution.
2. Refer to TMF 01/05.11.

E. Support Services

REVISED 06/10/10

TMF 01/02 - pg. 20

Finalize all arrangements involving the Support Services assistance with the Support Services Director.

- F. Finalize all arrangements involving the Medical Section assistance with the Correctional Medical Administrator.

G. Allied Agencies

Finalize arrangements with allied agencies assisting with the execution.

TMF 01/02.06 Six to Three Days Prior to Execution

A. Witnesses

1. All witness agreements should be signed.
  - a. Copies shall be provided to the:
    - (1) Command Post Director; and
    - (2) Auditor-in-Charge.
  - b. Persons refusing to sign agreements shall not be permitted to attend.
2. Exceptions to the time requirements will permit delayed signing of agreements for witnesses coming in from out-of-state.

B. Brief Allied Agencies

1. Members of allied agencies who have not participated in practice sessions or have not otherwise been briefed previously, shall be briefed and their post or responsibilities explained.
2. Briefings will include a detailed review of the individual's post order.

C. Inmate Property and Accounts

1. Complete all unfinished paperwork and arrangements.
2. If the condemned fails to cooperate in these arrangements, he shall be notified

REVISED 06/10/10

TMF 01/02 - pg.21

that the property and money will be disposed of according to state law, and Department policy.

D. Executioners

The Warden shall:

- 1.
2. ensure completion of all arrangements necessary for security of executioners and protection of their identities.

E. Equipment Check/Inventory

- 1.
2. Refer to TMF 01/05.10 (Firing Squad) and 01/10.09 (Lethal Injection).

TMF 01/02.07

A. Observation Period

- 1.
- 2.
3. Refer to TMF 01/05.12.

B. Meeting of Execution Planning Team

The Team shall meet to examine preparation for the execution. The checklists shall be reviewed and immediate assignments made to bring all items current with the schedule of events.

REVISED 06/10/10

TMF 01/02 - pg.22

Refer to TMF 01/02 pre-execution checklist  
Refer to TMF 01/03 execution checklist  
Refer to TMF 01/04 post execution procedure

C. Review of Procedures

Conduct final review of procedures.

D. Arrangements for Pickup of Executioners

1.

2.

E. Food Services

1. Verify last meal preparation.

2. Verify beverage/food preparations for working teams.

F. Communications

1. Verify installation of and test communications equipment for:

a.

b.

c. Information Center.

2. Refer to TMF 01/05.10.

G. Contact Support Agencies

1. Contact:

a. the Attorney General's Office;

b. the State Medical Examiner's Office;

REVISED 06/10/10

TMF 01/02 - pg. 23

- c. allied law enforcement agencies;  
and
    - d. the Governor's Office.
  - 2. Verify that each agency fully understands its role and is prepared to complete tasks.
- H. Equipment Check
- 1. Complete pre-execution inventory and equipment check.
  - 2. All systems should be tested.

REVISED 06/16/10

TMF 01/03 - pg. 33

TMF 01/03.06

A. Communications with Attorney General's Office

Refer to TMF 01/03.05,C, above.

B. Final Sequence of Events: Preparation

1. Bringing Condemned Inmate to Execution Chamber

The condemned inmate shall be:

a. removed from the observation cell by the Tie-Down Team;

b. dressed in a clean jump suit (the color of the jump suit will be at the discretion of the Warden);

c.

d. escorted to the execution chamber.

2. Tie-Down Procedures

the condemned shall be tied down as explained in TMF 01/05.13(lethal injection) or TMF 01/05.14(firing squad).

3. Prepare Condemned Inmate for Execution

The condemned shall be readied for execution:

a. if lethal injection, by completing the I.V. set-up procedure (See TMF 01/05.15); or

b. if firing squad, by completing the firing squad set-up procedures (See TMF 01/05.16).

4. Admit Witnesses

REVISED 06/10/10

TMF 01/03 - pg.34

- a. Witnesses shall be admitted and escorted to assigned viewing areas.
- b. The government witnesses shall enter first and shall be escorted to the government witness area. The escort shall remain with the witnesses.
- c. Following the government witnesses, the authorized witnesses invited by the condemned, and the victim's witnesses shall be admitted and escorted to the designated witness area.
  - (1) If any of the condemned inmate's invited witnesses, or the victim's witnesses wish to be on-site but not actually witness the execution, accommodations may be made for them.
  - (2) The escort officers shall remain with the condemned inmate's witnesses and the victim's witnesses.
- d. The last witnesses to be admitted shall be the news media representatives.
  - (1) The members of the news media selected to witness the execution shall be escorted to the designated witness room. They shall be separate from the condemned inmate's witnesses and the victim's witnesses. Escort officers shall remain with the news media witnesses and ensure their separation from the other visitors while at the execution site.
  - (2) The two pool photographers shall be escorted to a designated site, away from, and out of sight of, the execution chamber. They shall

REVISED 06/10/10

TMF 01/03 - pg.35

be secured inside the designated site until after the execution and until such time that they are allowed to film the cleaned up execution chamber.

C. Final Sequence of Events: Execution

1. Staff Witness

- a. Staff participating in the preparation for the execution shall exit the execution site.
- b. Staff members remaining to participate in and observe the execution shall include the:
  - (1) Executive Director/designee;
  - (2) Executive Director's back-up;
  - (3) DIO Director;
  - (4) Warden;
  - (5) Executioners;
  - (6) Escort Officers; and
  - (7) other staff as designated by the Executive Director/designee, DIO Director, or Warden.

2. Count-Down

- a. At the designated hour mandated for the execution, when everything is ready, the phone communication shall be terminated and the Executive Director/designee shall instruct the Warden to proceed with the execution.
- b. The Warden and DIO Director shall pull open the curtains covering the witness room windows.

c. The Warden shall ask the condemned inmate if he has any last words or wishes to make a statement.

- (1) The statement should not exceed two minutes.
- (2) If the inmate uses foul language, the Warden should immediately proceed with the next step in the execution procedure.
- (3) If the statement exceeds two minutes, the execution shall proceed without waiting for the conclusion of his remarks.
- (4) Audio recording equipment may be used by the Department for the purpose of recording the defendant's last words. The Department shall permanently destroy the recording made under this subsection not later than 24 hours after the completion of the execution.

d.

e. The Executive Director/designee shall instruct the executioners in the case of death by injection, or the firing squad leader in the case of a firing squad execution to proceed with the execution:

- (1) upon receiving the Warden's signal to proceed;
- (2) after verifying the earliest legal execution time has passed; and
- (3) if no instruction to halt has been received from the Attorney General's Office.

REVISED 06/10/10

TMF 01/03 - pg.37

- f. Following the instruction from the Executive Director/designee to execute the condemned inmate, the executioners shall immediately proceed with the execution as required in TMF 01/05.15(if by lethal injection) or TMF 01/05.16(if by firing squad).
- q. If the execution is ordered delayed

the Executive Director shall instruct the executioners to step away from the execution equipment and shall notify them that the execution has been stayed or delayed. The procedures set forth under TMF 01/06 shall then be initiated.

REVISED 06/10/10

TMF 01/04 - pg. 39

TMF 01/04.00 POST-EXECUTION PROCEDURES

TMF 01/04.01 General Provisions

A. Purpose of Chapter

The purpose of this chapter is:

1. to provide the procedures to be followed following the death by execution of the condemned inmate;
2. to identify the responsibilities for tasks to be completed; and
3. to provide for the transfer of the body of the condemned from the custody of the Department.

B. Policy

It is the policy of the Department that:

1. the witnesses to the execution shall be removed from the execution chamber for the news media witnesses who shall be removed to a secondary location until permitted to return for a filming opportunity in the execution chamber;
2. the condemned inmate shall be examined by a licensed physician following the administering of the fatal drugs or the first volley by the firing squad to ensure that death has occurred;
3. the physician, when satisfied that death has occurred, shall certify the condemned inmate dead;
4. following the certification of death, the body of the condemned shall be surrendered to the State Medical Examiner;
5. after removal of the body, the chamber shall be restored and the news media permitted to return to photograph the chamber;

REVISED 06/10/10

TMF 01/04 - pg.40

6. after the chamber has been photographed, the news media shall be returned to the designated area to brief the other assembled members of the news media;
- 7.
8. the entire execution process will be reviewed and evaluated by the AuditBureau to permit a post-execution examination of the competence, efficiency and effectiveness of the execution procedures and staff (see TMF 01/20).

TMF 01/04.02 Certification of Death

- A. After the drugs have been administered/or the execution completed by firing squad:
  1. the Warden shall wait a maximum of three minutes;
  2. the Warden shall then tell the DIO Director/designee to summon the attending physician to the condemned; and
  3. the physician shall take the condemned's vital signs.
- B. If there are signs of life, the physician shall wait beside the condemned and check the vital signs every 60 seconds until vital signs cease.
- C. If execution is by firing squad, and if after a maximum of ten minutes from the first volley, there are still signs of life, the physician will inform the Warden. The Warden will then initiate the steps in TMF 01/05.16.
- D. When no vital signs are detected, the physician shall certify death in keeping with standard medical practices.

TMF 01/04.03 Removing Witnesses from Execution Chamber

REVISED 06/10/10

TMF 01/04 - pg.41

2. The Medical Examiner, or his designee, may issue the death certificate for deaths that occur at the prison. (UCA 26-4-7, 26-4-10)

TMF 01/04.05 Removing Executioners from the Execution Area

A.

B.

C.

TMF 01/04.06 Site Clean-Up

A. The injection team shall (if execution was by lethal injection):

1. use universal precautions and protective equipment to protect for blood or other potentially infectious materials;

2.

3.

4.

5.

B. The Tie-Down Team shall be responsible for:

1. using universal precautions and protective equipment to protect against blood and other potentially infectious material; and

- A. After the certification of death by the physician, the curtains shall be closed by the Warden and DIO Director/designee and the witnesses shall be escorted from the witness viewing rooms
  - 1.
  - 2.
  - 3.
  - 4.
  - 5.
- B. The news media shall be escorted to an alternate location in the execution building until they can be returned for the filming opportunity after the execution chamber has been cleaned up.
- C. The condemned inmate's witnesses, government witnesses, and the victim's witnesses shall be escorted to waiting transportation vehicles
- D.

TMF 01/04.04 Removal of Executed Inmate

- A. After the witnesses have been removed:
  - 1. if the execution is by lethal injection, the IV should be cut by the executioners in order for the catheters to remain in the executed inmate's body; and
  - 2.
- B. The State Medical Examiner/designee shall be escorted into the death chamber
  - 1. The State Medical Examiner has jurisdiction over all deaths that occur at the Utah State Prison. (UCA 26-4-7)

REVISED 06/10/10

TMF 01/04 - pg.42

2. cleaning up the execution site, using universal precautions where appropriate.

TMF 01/04.07 News Media Re-Entry to Execution Site

- A. After the site is restored and cleaned, the news media witnesses and pool photographers shall be escorted to the execution site.
- B. The photographers shall be permitted to tape/photograph the site and observation cell (if approved by the Warden) as required in TMF 01/08.
- C.

TMF 01/04.08 Returning to Standard Operation

A.

- 1.
- 2.

B.

C.

TMF 01/04.C9 Review of Execution

Refer to TMF 01/20.

TMF 01/05.00 EXECUTION PROCEDURES

TMF 01/05.01 General Provisions

A. Purpose of Chapter

1. This chapter provides the procedures which are used when the Department exercises its statutory responsibility to carry out an execution.
2. The topics include those procedures which are employed:
  - a. immediately prior to receiving the death warrant;
  - b. from receiving the death warrant to and during the execution;
  - c. immediately following the execution; and
  - d. during the debriefing and audit phases of the execution.

B. Policies

1. It is the policy of the Department that the procedures employed in preparing for and carrying out an execution be comprehensive and clearly defined.
2. The procedures shall be developed consistent with state and federal law.

TMF 01/05.02 Death Warrant

A. Judgement of Death

1. When judgment of death is rendered, a warrant signed by the judge and attested by the clerk under the seal of the court, shall be drawn and delivered to the sheriff of the county where the conviction is made. 77-19-6 UCA
2. The Sheriff shall deliver the warrant and a certified copy of the judgment to the UDC Executive Director/designee at

REVISED 06/10/10

TMF 01/05 - pg.48

the time of delivering the defendant to the custody of the Department. 77-19-6 UCA

3. The warrant states the conviction and judgment, the method of execution, and the appointed day the judgement is to be executed. The Department of Corrections shall determine the hour, within the appointed day, at which the judgement is to be executed.

B. Return Upon Death Warrant

1. After the execution, the UDC Executive Director/designee shall make a return upon the death warrant showing the time, place and manner in which it was executed. 77-19-12 UCA
  - a. The "Certificate of Execution":
    - (1) shall be signed by the Warden and the physician; and
    - (2) shall include the full names and official titles of the official witnesses.
  - b. The "Certificate of Execution" shall be submitted for review to the Executive Director/designee.
  - c. Following review by the Executive Director/designee, the "Certificate of Execution" shall be returned to the Warden.
2. The "Certificate of Execution" shall be directed by registered mail to the clerk of the court of the county from which the individual executed was sentenced.
3. A return receipt shall be requested from the recipient.
4. A copy of the certificate shall be placed in the deceased inmate's file.

TMF 01/05.03 Selection of Lethal Injection ExecutionTeam

REVISED 06/10/10

TMF 01/05 - pg.49

A. Statutory Requirements

1. The Executive Director/designee shall ensure that the method of judgment of death specified in the warrant is carried out at a secure correctional facility operated by the department at an hour determined by the department on the date specified in the warrant. 77-19-10 (1) UCA
2. When the judgment of death is to be carried out by lethal intravenous injection, the executive director of the department or his designee shall select two or more persons trained in accordance with accepted medical practices to administer intravenous injections, who shall each administer a continuous intravenous injection, one of which shall be a lethal quantity of sodium thiopental or other equally or more effective substance sufficient to cause death. 77-19-10 (2) UCA

B. Selection of Execution Team

1. If the judgment of death is to be carried out by intravenous lethal injection, a minimum of two persons, each trained to administer intravenous injections shall be selected for the IV team.
2. Method of Selection
  - a. The DIO Director/designee and the Warden of the Utah State Prison, Draper site, shall be members of the execution team by virtue of their official position.
  - b. The Executive Director/designee, DIO Director/designee and the

Warden shall select a minimum of four (4) additional members, other than the DIO Director/designee and Warden, for the execution team.

1. Of the four (4) additional members, a minimum of two (2) execution team members will be on the IV team.
2. No member of the execution team, other than the DIO Director/designee and Warden, shall be required to serve as a member of the execution team without consent.
3. The Executive Director/designee, DIO Director/designee, and Warden will designate one execution team member as the execution team leader.
  - a. The execution team leader shall not be the DIO Director/designee or the Warden; and
  - b. The execution team leader shall not be a member of the IV team.
4. The Executive Director/designee, DIO Director/designee, and Warden shall review the qualifications of the IV team members according to requirements outlined in subsection (3)(a through d) and other relevant information as to appropriate training and skills in administering intravenous injections. One IV team member will be designated as the IV team leader.
  - c. Following the examination and evaluation of candidates, the Executive Director/designee, DIO Director/designee and Warden, shall

REVISED 06/10/10

TME 01/05 - pg.51

select the execution team members.

- d. All execution team members shall read and understand the execution procedures. The Warden shall conduct a review of the execution procedures annually.

3. IV Team Qualifications

- a. At least two (2) members of the execution team shall be designated as the IV team for an execution by lethal injection.
- b. Each member of the IV team shall be a:
  - 1. Phlebotomist;
  - 2. Emergency Medical Technician;
  - 3. Paramedic; or
  - 4. Military Corpsman.
- c. Each member of the IV team shall:
  - 1. Have at least one (1) year of professional experience in his specialty;
  - 2. Remain certified in his specialty or profession; and
  - 3. Fulfill all continuing education requirements in his specialty or profession.
- d. Prior to participating in an execution, the members of the IV team shall have participated in at least three (3) complete execution practices.

4. Securing Services

a. The Warden/designee shall contact those chosen for the execution team to notify them of their selection and verify their willingness and availability to perform the duties of execution by lethal injection.

1. If any person declines participation, the Executive Director/designee, DIO Director/designee and Warden will select a replacement according to the processes outlined in this section.

2. If all of the execution team members agree to participate, their individual roles as execution team members shall be explained to them.

b.

TMF 01/05.04 Selection of Executioners by Firing Squad

A. Statutory Requirements

1. "The Executive Director of Corrections/designee shall ensure that the method of judgment of death specified in the warrant is carried out at a secure correctional facility operated by the Department of Corrections." 77-19-10(1) UCA

2. "If the judgment of death is to be carried out by firing squad, the Executive Director of Corrections or his designee shall select a five-person firing squad of peace officers." 77-19-10 (3) UCA

REVISED 06/10/10

TMF 01/05 - pg.53

B. Selection of Executioners

1. A five-person execution team, plus two alternates and a team leader shall be chosen for the firing squad.
2. The alternate(s) shall be selected to replace any member(s) of the firing squad who are unable to discharge their required functions.
3. Persons selected for the firing squad shall be POST certified peace officers.
4. Selected peace officers will be required to demonstrate proficiency with weapons designated to carry out the execution.
  - a. Under conditions substantially similar to those of the execution chamber, proficiency shall be exhibited by:
    1. Firing each weapon.
    2. At a minimum of 21 feet, accurately hitting the target of the same dimension as that which will be attached to the condemned.
  - b. During the proficiency test, failure to accurately hit the specified target with one round from each weapon fired shall disqualify the officer.
- 5.

C. Method of Selection

1. The Executive Director/designee, DIO Director and Warden shall be responsible for the selection process.

2.

3. The final choice of firing squad members shall be the responsibility of the Executive Director/designee, DIO Director and Warden.
4. The Executive Director/designee, DIO Director/designee and Warden shall review the qualifications of the firing squad, including required proficiency as outlined in section (B4) and other relevant information.

D. Securing Services

1. The Executive Director and/or Warden shall contact those chosen for the firing squad, alternates and team leader to notify them of their selection and to verify their willingness and availability to perform the execution duties.
  - a. If any person rescinds his original offer to participate, the selection team shall meet to select a replacement.
  - b. If all of the selectees agree, their individual roles shall be explained to them.

2.

TMF 01/05.05     Designation of Persons Required, Permitted or Prohibited from Witnessing the Execution

- A. The Utah Code limits and identifies those persons who may attend and witness the execution. (See TMF 01/07.03.)

REVISED 06/10/10

TMF 01/05     - pg.55

- B. The Warden shall designate the required personnel to carry out the statutory requirements of an execution. Staff should include:
1. Deputy Warden;
  2. Observation Officers
  3. Tie-down Officers,
  4. one Team Foreman for the escort/Tie-Down Team;
  5. executioners (reference TMF 01/05.03 & .04);
  6. Clean-up Officers (number to be determined by the Warden/designee), assigned to clean up the execution chamber immediately following the execution;
  7. Guide Officers (number to be determined by the Warden/designee);
  - 8.
  - 9.
- C. The Warden/designee shall designate the appropriate resources necessary to carry out the requirements of an execution. The designated individuals shall be responsible for:
1. advising the Warden concerning any medical supplies, etc.;
  2. the preparation and supervision of meals prepared during the observation period, and for the condemned inmate's last meal;

3. ordering, verifying, picking-up the drugs, equipment, etc., necessary to carry out an execution by lethal injection; and
4. pronouncing the death of the condemned inmate.

TMF 01/05.06 Disposition of Condemned Inmate's Property

A. Contact with Condemned Inmate

1. At least 30 days prior to the scheduled execution the condemned inmate should be contacted to discuss arrangements for disposing of his property.
2. At least 14 days prior to the execution property-disposition arrangements should be finalized.
3. At least seven days prior to the execution all paperwork required for final disposition should be completed.
4. If the condemned is uncooperative, doesn't wish to make specific property-disposition arrangements, or for any other reason has not made arrangements for disposition, he shall be notified the property will be disposed of as required under 64-13-15 (1) UCA.

B. Options for Disposing of Property

1. Property may be released to an authorized visitor (family, friend or attorney). The release would follow the normal property release procedures.
2. Property may be mailed through the U.S. Postal Service. The prison's Mail Unit shall process the mailing consistent with standard mail procedures. Indigent status does not cover property-release postage.
3. Property may be donated to a charitable organization.

REVISED 06/10/10

TMF 01/05 - pg.57

4. If the condemned fails to designate a property-disposition option:

"if property is not claimed within one year of death...it becomes property of the state and may be used for correctional purposes or donated to a charity within the state." 64-13-15 (1) UCA

C. Release Procedure

1. Following a decision to release the condemned's property, the property shall be:
  - a. inventoried by staff; and
  - b. transferred to the property room.
2. The release will then follow according to the appropriate release procedures. Refer to FDr14, "Inmate Property" and FDr03, "Inmate Mail."

TMF 01/05.07 Disposition of Money in Inmate Account

A. Contact with Condemned Inmate

Follow the time-table for contact with the condemned outlined for property under TMF 01/05.06.

B. Options for Disposing of Inmate Accounts

1. The condemned shall be required to complete a money transfer form releasing the money in his account to his next of kin or other person or organization of his choice.
2. If the condemned refuses or otherwise fails to complete the necessary forms, the funds shall be disposed of consistent with state law.

TMF 01/05.08 Disposition of the Body of the Condemned

A. Release to Medical Examiner

1. After the executed inmate is pronounced dead, the body shall be released from the restraints and removed from the execution chamber.
2. The body shall be immediately surrendered to the State Medical Examiner/designee.

REVISED 06/10/10

TMF 01/05 - pg. 59

1.

2.

3.

4.

5.

6.

7.

C. The execution team leader shall be  
responsible to arrange for:

1. .30-caliber rifles;

2. live rounds of ammunition;

3. blank rounds of ammunition;

4. practice sessions and dry fire;

5. ensuring equipment is clean and  
operable; and

6. back-up equipment for items 1, 2, 3,  
above.

D. prior to the execution:

1. the executioners shall be escorted into  
the execution chamber by the DIO  
Director/designee; and

REVISED 06/10/10

TMF 01/05 - pg. C1

2.

E. Bloodborne Pathogens Precaution

As a precaution, all persons who may come in contact with the condemned's body fluids shall be issued rubber gloves and bloodborne pathogen protection supplies and equipment.

TMF 01/05.11 Procurement, Storage and Accountability of Chemicals for Lethal Injection

A. Purchase

1.

the Warden shall provide to the pharmacist for his official records a memorandum specifying:

- a. The drugs which must be obtained;
- b. A copy of the judgment of death; and
- c. A copy of the state statute. 77-19-10(2) UCA

2.

the pharmacist shall order the drugs from the vendor. Upon receiving the drugs, the pharmacist shall:

- a.
- b. Immediately notify the Warden that the drugs have been received;
- c.
- d.

Equipment and Materials Checklist: Execution by Injection

REVISED 06/10/10

TMR 01/05 - pg. 03

Quantity	Item	Code
	Sodium Thiopental (Pentathal), 500 mgm., w/diluent	A
	Pancuronium Bromide (Paravulon), 50 mgm. Ampules	A
	Potassium Chloride, 240 miliequiv. Ampules	A
	Valium injection, 10 mgm	A
	Syringe, 60 cc Lur Lock	
	Syringe, 10 cc Lur Lock	
	Syringe, 5 cc Lur Lock	
	Needle, 18 Ga., 1 1/2	
	Needle, 25 Ga., 1 1/4	
	Angiocath, 14 Ga., 2 1/4"	
	Angiocath, 18 Ga., 1 1/4"	
	Angiocath, 16 Ga., 1 1/4"	
	Normal saline, IV bad, 1000C	
	Lidocaine HCL, 2% w/Epinephrine	
	Lidocaine HCL, 2% w/o Epinephrine 2	
	Solution injection set, 70" long with	
	Y-injection site: Travenol Code: #2C0005S	
	Extension set, 35" long; Travenol Code #2C0066	
	Stethoscopes	
	Boxes of alcohol preps	
	Rolls of Kling	
	Adhesive tape, 1"	
	Adhesive tape, 2"	
	Scissors, bandage, Pr.	
	Tourniquet	
	Hemostat, sterile	
	Flashlight, w/batteries	A
	Batteries, flashlight, (spares)	A
	Ace wraps 3"	
	Needle holders	
	10 packs sterile gauze	
	Sharp containers	

	BIO-Hazardous trash bags	
	Extra large impervious gowns	
	IV hangars	
	Mayo stand	
	Terry cloth towels	
	Goose neck light	
	Blood spill kits	
	Trash containers	
	Electronic Heart Monitor (EKG)	

TMF 01/05.12 Observation Period and Related Activities

A. Access

1.

2.

3.

B. Preparation of the Observation Cell

1.

a.

b.

c.

2. Stocking the Cell

- a. The observation cell shall be outfitted with the following items:

- (1) mattress (1);
- (2) pillow (1);
- (3) pillow case (1);
- (4) sheets (2);
- (5) blankets (2);
- (6) towel (1);
- (7) soap, small (1);
- (8) toilet paper, roll (1);
- (9) jump suit (color to be determined by the Warden) (1);
- (10) socks (1 pr.);
- (11) shower thongs (1 pr.); and
- (12) pocket comb, no metal (1).

- b. If requested, the cell will also have the following items purchased new

- (1) Bible (1);
- (2) magazine
- (3) newspaper  
; and
- (4) photographs

- c. The following items may be given on request, as needed,

- (1) toothbrush (1);

(2) toothpaste

(3)

d. If the condemned inmate receives mail the officer shall allow the condemned inmate adequate time to read the mail

f.

g. Additional property shall be approved by the warden.

3. Test Equipment

a.

b.

c.

1.

2.

3.

4.

4.

5. Upon completion of the execution and as directed by the Warden, the Tie-Down Team shall re-enter the execution chamber and remove the straps in reverse order as outlined above.

TMF 01/05.15 Lethal Injection Protocol

A.

1.

2.

REVISED 06/10/10

TMF 01/05 - pg. 76

B. Preparation of Syringes

1.
  - a.
  - b.
  - c.
2. The execution team leader shall provide the drug box to the IV team leader.
  - a. The IV team leader shall prepare each chemical in accordance with the manufacturer's instructions and draw them into the two (2) sets of syringes.
  - b. The second member of the IV team and the execution team leader shall observe preparation of the chemicals and verify that the instructions and procedures have been carried out correctly.
  - c.
3. The syringes containing the chemicals shall be prepared and loaded in the following order:
  - a. Two 60-cc syringes, each containing 240 milliequivalents of Potassium Chloride in 50-cc and label syringes "Syringe #3.
  - b. Two 60-cc syringes, each containing fifty (50) milligrams of Pancuronium Bromide in 50-cc and

REVISED 06/10/10

TMF 01/05 - pg. 77

label syringes "Syringe #2".

- c. Two 60-cc syringes, each containing three (3) gm of Sodium Thiopental in 50-cc and label syringes "Syringe #1".
- d. The secondary syringes containing each of the three chemicals are to serve the following purposes.
  - 1. Secondary syringe of Sodium Thiopental is prepared in the event the condemned has not lost consciousness sixty (60) seconds after the first administration of the chemical.
  - 2. Secondary syringes containing Potassium Chloride and Pancuronium Bromide are prepared in the event the condemned has not been pronounced dead after the first administration of the chemicals.
- 4. Any syringes that are loaded with lethal injection chemicals that are not used during the execution shall:
  - a. Be returned to the Warden by the execution team leader;
  - b. Be destroyed by the Warden,
- 5. Any unused chemicals that were not mixed in preparation of the lethal injection shall:
  - a. Be returned to the Warden by the IV team leader;
  - b. Be destroyed by the Warden,

REVISED 06/10/10

TMF 01/05 - pg. 78

C.

D.

E. The IV team leader:

1. Shall, along with the second IV team member, verify two (2) labeled sets of each of the three (3) chemicals are present, filled, and clearly labeled;
2. Provide the two (2) labeled sets of each of the three (3) chemicals contained in the drug box to the execution team leader who will verify, along with another execution team member, selected by the execution team leader, the appropriate number of syringes have been surrendered and are clearly labeled; and
3. Prepare the IV set-up.

F. IV Set-up Procedure by IV Team

1. The connector of Administration Set (McGaw V1417 or equivalent) shall be inserted into the bag of Normal Saline IV solution.
2. The Flo Trol clamp located above the "Y" site shall control the flow of solution.
3. A 35-inch Extension Set (Travenol 2C0066 or equivalent) shall be connected to the needle adapter of the Administration Set.

4. The set-up for administration into the back-up IV site may require additional Extension Sets due to the potential of additional distance.
5. All connections should then be taped to ensure they do not come apart during the procedure.
6. The tubing shall be cleared of air by removing the protector from the needle adapter and opening the Flo Trol clamp letting the tube fill with solution.
7. The Flo Trol clamp shall then be closed and the protective cap over the needle adapter replaced.
8. Steps 1 through 7 shall be repeated for the second set-up.

G. Injection Procedure by IV Team

1. The Warden shall order the condemned person escorted to the execution chamber and strapped to the gurney.
2. The IV team shall run the IV lines to the condemned person by the following:
  - a. Site and insert one (1) primary IV line; and
  - b. Site and insert one (1) back-up IV line.
3. The IV team members shall determine the location of the IV sites on the body of the condemned person.
4.
  - a.
  - b.
  - c.
  - d.

H. IV Placement Process by IV Team

1. The angiocath shall be inserted into the vein of the primary IV site.
2. To best ensure that a needle is inserted properly into a vein, the IV team members shall look for the presence of blood in the valve of the sited needle.
3. The inner needle is then withdrawn and the needle adapter is placed on the angiocath.
  - a.
  - b.
4. The flow of normal saline shall be started and administered at a slow rate to keep open.
5. Step 1 through 3 shall be repeated for the back-up IV site.
6. The Administration Sets shall be running at a slow rate of flow, to keep open and ready for the insertion of syringes containing the injection chemicals.
7. Both set-ups shall be observed by the IV team members to ensure they are both patent and functioning properly.
8. No further action is necessary at this time.

I. Lethal Injection Procedure

1. The execution team shall:

- a. Securely connect the electrodes of the cardiac monitor to the condemned person; and
  - b. Ensure the equipment is functioning properly.
2. At the designated hour mandated for the execution, when everything is ready:
  - a. The DIO Director/designee and Warden shall pull open the curtains covering the witness room windows.
  - b. The Warden shall ask the condemned inmate if he has any last words or wishes to make a statement.
    1. The statement should not exceed two minutes.
    2. If the inmate uses foul language, the Warden should immediately proceed with the next step in the execution.
    3. If the statement exceeds two minutes, the execution shall proceed without waiting for the conclusion of his remarks.
    4. The Department, for the purpose of recording the condemned inmate's last words, may use audio recording equipment.
      - a. The Department shall permanently destroy the recording made under this subsection not later than 24 hours after the completion of the execution.
      - b. No form of duplication of the audio shall be permitted.
      - c. The Warden, witnessed by the DIO Director/designee, shall

REVISED 06/10/10

TMF 01/05 -- pg. 82

destroy any audio  
recording.

- c. At the conclusion of the remarks, or when the Warden determines it is time to proceed, a prearranged signal shall then be given by the Warden to the Executive Director/designee.
- d. The Executive Director/designee shall order the execution team leader to begin the administration of the chemicals providing:
  - 1. The earliest legal execution time has been verified and has passed; and
  - 2. No instruction to halt has been received from the Attorney General's Office.
- e. Following the instruction from the Executive Director/designee to execute the condemned inmate, the execution team leader shall immediately proceed with the execution.
- f.
  - 1.
  - 2.
  - 3.
- 3. Upon the Executive Director/designee's order to proceed, the execution team leader shall begin the following

REVISED 06/10/10

TMF 01/05 - pg. 83

sequence:

- a. The flow of the normal saline into the arm shall be cut off using the Flo Trol clamp.
- b. The clamp should be moved as close to the "Y" site as possible.
- c. The 18 ga needle of Syringe #1 (three (3) gm of Sodium Thiopental) shall be inserted into the "Y" site and the injection shall commence.
  1. A steady, even flow of the injection shall be maintained with only a minimum amount of force applied to the syringe plunger.
  2. When the entire contents of the syringe have been injected, syringe #1 shall be removed from the "Y" site.
- d. The Flo Trol clamp should then be opened fully and allowed to run for 15 seconds.
- e. The Flo Trol clamps shall then be closed.
- f. A period of sixty (60) seconds shall pass after the administration of the Sodium Thiopental and closure of the Flo Trol clamp.
  1. After the passage of sixty (60) seconds:
    - a. If it appears to the Warden based on his visual inspection that the condemned person is not unconscious:
      - i. The Warden shall notify the Executive Director/designee;
      - ii. The Executive Director/designee

REVISED 06/10/10

TMF 01/05 - pg. 84

will order the execution team to switch to the back-up IV site;

- iii. The Executive Director/designee shall order that the back-up IV site be used with a new flow of Sodium Thiopental

(secondary syringe labeled Syringe #1);  
and

- iv. The Executive Director/designee shall order the remaining sequence of chemicals to be injected through the back-up IV site.

- 2. If it appears to the Warden based on his visual inspection that the condemned person is unconscious after the first injection of Sodium Thiopental, the Warden shall notify the Executive Director/designee who will then order the execution team to continue to the next step in the sequence.

- g. The 18 ga needle of Syringe #2 (fifty (50) milligrams of Pancuronium Bromide) shall be inserted into the "Y" site and the injection shall commence;

- 1. A steady, even flow of the injection shall be maintained with only the minimum amount of force applied to the syringe plunger.
- 2. When the entire contents of the syringe have been injected, Syringe #2 shall be

REVISED 06/10/10

TMF 01/05 - pg. 85

removed from the "Y" site.

- h. After syringe #2 has been given, the Flo Trol clamp should be opened fully for 15 seconds.
- i. The Flo Trol clamp shall then be closed.
- j. The 18 ga needle of Syringe #3 (240 milliequivalents of Potassium Chloride) shall be inserted into the "Y" site and the injection shall commence;
  - 1. A steady, even flow of the injection shall be maintained with only the minimum amount of force applied to the syringe plunger.
  - 2. When the entire contents of the syringe have been injected, Syringe #3 shall be removed from the "Y" site.
- k. The Flo Trol clamp shall then be opened fully and allowed to run for 15 seconds.
- l. The Flo Trol clamp shall then be closed.
- m. An execution team member designated by the execution team leader shall start a stopwatch once the lethal injections are complete.
- n. The execution team leader shall:
  - 1. Observe the heart monitor; and
  - 2. Advise the attending physician electrical activity of the heart has ceased as indicated by a flat line on the heart monitor.
- o. The Warden shall notify the Executive Director/designee if it appears an additional set of lethal chemicals needs to be administered

REVISED 06/10/10

TMF 01/05 - pg. 86

due to the following conditions:

1. Heart monitor does not indicate a flat line after ten (10) minutes; or
2. The attending physician is not able to declare the time of death after ten (10) minutes.

p. In the event death has not occurred;

1. The Executive Director/designee will order the process established in subsection (2)(f) of this section and subsequent sections to continue with the secondary set of syringes until death has occurred.

q. During the execution by Lethal injection, the DIO Director/designee and Warden shall:

1. Watch the primary IV site for failure, leakage, the catheter coming out of a vein, or any other problem.
2. In the event that an IV fails, leaks, if the catheter comes out of the vein, or any other problem arises, the execution team shall be ordered to switch to the back-up IV.
3. In the event the execution team is ordered to switch to the back-up IV, the DIO Director/Warden shall watch the back-up IV site for failure, leakage, the catheter coming out of a vein, or any other problem.

J. Post Lethal Injection Steps

1. When the physician declares death, the Executive Director/designee, DIO

REVISED 06/10/10

TMF 01/05 - pg. 87

Director/designee and Warden shall be informed.

2. The DIO Director and Warden shall close the viewing room curtains.
3. The Executive Director/designee shall make appropriate contact with the Governor and Attorney General informing them of the completion of the execution.

K. Disposal of BIO-Hazardous Contaminated Items

1. The execution team leader shall place items that have been contaminated with blood or other potentially infectious materials (OPIM) that have the potential to puncture into a puncture proof container (sharps container).
2. The execution team leader shall place other types of blood or other potentially infectious materials in trash containers lined with a red BIO-Hazardous waste bag.
3. The Correctional Medical Administrator shall ensure that the contaminated waste is disposed of in the proper Dumpster.

TMF 01/05.16 Execution by Firing Squad

A.

B.

1. Refer to TMF 01/05.10.
2. The team leader shall load the weapons and prepare to issue them to the members of the firing squad.
3. Two rounds shall be loaded in each weapon.
4. Care shall be taken to preclude any knowledge by the members of the firing

REVISED 06/10/10

TMF 01/05 - pg. 88

squad of who is issued the weapon with two blank cartridges.

- C. The Warden shall direct that an aiming point or target be placed over the condemned inmate's heart.
- D. Upon completion of "C", above, the Warden shall direct the person who placed the target to exit the execution chamber.
- E. After the target is in place and all witnesses are secured, the Warden shall direct that the viewing room curtains be opened.
- F. After all preliminaries are completed, the Warden, at the conclusion of the condemned inmate's last words (which shall not exceed two minutes and cease at any point should the condemned use foul language), shall place the hood over the condemned's head.
  - (1) Audio recording equipment may be used by the Department for the purpose of recording the defendant's last words.
  - (2) The Department shall permanently destroy the recording made under this subsection not later than 24 hours after the completion of the execution.
  - (3) No form of duplication of the audio shall be permitted.
  - (4) The Warden, witnessed by the DIO Director/designee, shall destroy any audio recording.
- G. The DIO Director/designee, Warden, and any other observers shall exit the execution chamber.
- H. When the Warden enters the executioners' room and secures the door, if no stay or delay in the execution has been ordered, the Executive Director/designee shall immediately order the firing squad team leader to begin the cadence for the executioners to fire.

- I. A designated execution team member shall start a stopwatch once the first volley has been fired.
- J. If the condemned inmate appears to be unconscious, upon the order of the Executive Director, the Warden and DIO Director shall re-enter the execution chamber after the first volley.
  - 1. The Warden shall wait a maximum of three minutes after the first volley and then call for the physician to check the vital signs of the condemned.
    - a. If there are signs of life, the physician shall wait beside the condemned and check the vital signs every 60 seconds.
    - b. When no vital signs are detected, the physician shall certify death in keeping with standard medical practices.
    - c. After death is certified, the Warden shall direct that the viewing room curtains be closed.
  - 2. If, after a maximum of ten minutes from the first volley, the inmate is unconscious but alive, the Warden shall direct the physician to make a final check of the condemned's vital signs.
    - a. If on final check, vital signs are detected, the Warden shall order the physician to exit the execution chamber.
    - b. The Warden and DIO Director shall re-enter the executioner's room.
    - d. The Executive Director/designee shall order the firing squad team leader to make the weapons ready to fire.
    - e. The Executive Director/designee shall immediately order the firing squad team leader to begin the

cadence for the firing squad to fire a second volley.

- f. After the firing of the second volley, the Warden and DIO Director shall re-enter the execution chamber and proceed with paragraph "J,1", above.
- K. If, after the first volley is fired, the condemned is obviously conscious, the Executive Director/designee shall instruct the firing squad team leader to immediately prepare the weapons to fire again.
  - 1. The firing squad team leader shall ready the weapons in a controlled and safe manner.
  - 2. The firing squad team leader shall ensure the executioners do not see which weapon contains the blank cartridges.
  - 3. When the weapons are ready, if the condemned is still obviously conscious, the Warden shall ensure no staff members are in the execution chamber.
  - 4. Upon notice from the Warden that the execution chamber is clear, the Executive Director shall immediately order the firing squad team leader to begin the cadence for the executioners to fire a second volley.
  - 5. After the second volley, continue with "J", above.
- L. The Executive Director shall make notification of the condemned's death to the Governor and the Attorney General.

TMF 01/05.17 Pre-Execution Rehearsals and Practices

- A. A minimum of three rehearsals and practices shall be conducted to carry out an execution in a timely fashion maintaining the necessary

REVISED 06/10/10

TMF 01/05 - pg. 91

security. Practice/rehearsal shall be provided for but will not be limited to:

1. briefing;
  2. removing the condemned inmate from the observation cell;
  - 3.
  4. escort to execution chamber;
  5. tie-down procedures completed;
  6. approximate time for IV injection procedure (execution time approximate);
  7. clearing and escorting witnesses to/from execution site;
  8. security curtains opened and closed;
  9. condemned inmate's body removed from execution table/chair;
  - 10.
  11. clean-up;
  12. debriefing outlined;
  13. firing of weapons; and
  14. ensure sufficient precautions are taken to minimize the risk of bio-hazardous exposure.
- B. Planning backward from the execution shall be used to develop realistic time lines for each function involved in the execution.
- C.

1. Discrepancies, concerns or proposed modifications due to system problems

REVISED 06/10/10

TME 01/05 - pg. 92

shall be immediately reported to the  
Warden.

2.

TMF 01/05.18 Support Services Functions

A. Food Services

1. Observation Period Meal Service

a.

b. The Food Services Director/designee shall confirm the condemned's choice of a last meal. The confirmation should be made 48-24 hours prior to the execution.

c.

d.

e. Alcoholic beverages shall not be served nor used for cooking.

2. Beverage and Food Service for Staff

a. Because of the length of time many persons will be required to remain on site without being able to leave, it may be necessary to serve food and beverages to those assigned to the execution.

REVISED 06/10/10

TMF 01/05 - pg. 93

b.

c. Food and beverage services may be provided to:

- (1) the command post;
- (2) the Information Center;
- (3) the food preparation area of the building in which the execution will occur;
- (4) to the Draper site Security Deputy Warden for delivery to perimeter posts; and
- (5) other sites as needed.

d.

B. Medical Staff

1. Receipt of Death Warrant

Upon receipt of the death warrant the Correctional Medical Administrator shall:

- a. review the medical procedures, post orders and equipment checklist and make recommendations in writing to the Warden concerning any back-up or duplication of any medical

REVISED 06/10/10

TMF 01/05 - pg.94

paraphernalia that may be necessary to carry out an execution; and

- b. shall confer with the Chief Physician and assign all execution-related tasks to be completed.

2. Thirteen to Seven Days

- a. At least thirteen days prior to the execution the Warden shall provide to the pharmacist, for his official record, authorization to purchase drugs. Authorization shall be in the form of a memorandum including:

- (1) the names of the drugs which shall be obtained;
- (2) a copy of the judgement of death; and
- (3) a copy of the state statute (77-19-10 (2) UCA).

- b. At least seven days prior to the execution the pharmacist shall order the drugs from the vendor (refer to chapter TMF 01/05.11).

- (1) If the state's prime vendor cannot deliver the drugs, the pharmacists shall make arrangements with other vendors or hospitals to obtain the drugs.
- (2) If the drugs cannot be delivered to the prison by the primary vendor or their delivery service to the prison, the pharmacist shall notify the Correctional Medical Administrator.
- (2) The Correctional Medical Administrator shall make arrangements with the Draper site Security Deputy Warden to have an officer accompany them

REVISED 06/10/10

TMF 01/05 - pg.95

to the location where the  
other drugs may be obtained.

c.

3.

4.

5.

a.

b.

c.

6.

a.

- (1) the sodium pentothal syringes  
shall be prepared by the  
pharmacist at the direction of  
the Warden when it appears the  
execution shall be carried  
out;

REVISED 06/10/10

TMF 01/05 - pg.96

- (2) a medical-response team shall be on standby to provide any medical attention which may be needed during the time of the scheduled execution;
  - (3) a USP emergency equipment kit and a back-up kit shall be made available at the execution site; and
  - (4) the Correctional Medical Administrator (CMA)/designee and a USP Medical staff with skills in intravenous injections, I.V. set-up, cut-down, etc., shall be available at the execution site to provide medical assistance in the execution chamber, if necessary.
- b. Equipment and lethal drugs shall be gathered up by the CMA/designee following the execution.
- (1) The CMA/designee shall be responsible for the disposal of the medical equipment used for lethal injection in accordance with TMF 01/05.15.
  - (2)

C. Maintenance Staff

1. Receipt of Death Warrant

- a. Upon receipt of the death warrant the Deputy Warden Support Services shall:
- (1) review the maintenance procedures and the equipment checklist and make recommendations in writing for changes, additional equipment, etc. as is viewed essential

REVISED 06/10/10

TMF 01/05 - pg.97

and provide such  
recommendations to the Warden  
prior to the scheduled  
execution date; and

- (2) confer with the Maintenance Director and assign all execution related tasks to be completed.

b. The Maintenance Director shall then prepare a task completion calendar which shall be presented to the Deputy Warden Support Services for approval, including:

- (1) a review of the maintenance procedure and the equipment checklist;
- (2) recommendations to the Warden in writing of changes, additional equipment, etc. as is viewed essential prior to the scheduled execution date;
- (3) identification of strategies to ensure that all systems, equipment, and mechanisms associated with the execution facility are functional and are readily repairable given an unexpected malfunction;
- (4) identification of emergency equipment, materials, and substances necessary to ensure that system, equipment, and/or mechanism malfunctions are expeditiously remedied;
- (5) establishment of inspection checklist and time frames for:
  - (a) the facility designated for the execution;
  - (b) the observation cell; and
  - (c) emergency backup systems;

REVISED 06/10/10

TMF 01/05 - pg.98

- (6) ensuring that all maintenance service/repair trucks are in good operational condition and supplied with equipment, tools, and supplies necessary to correct all execution related emergencies; and
- (7) identification of maintenance personnel necessary to address all execution day maintenance emergencies.

2.

The Maintenance Director shall:

- a. complete a pre-inventory check of the necessary equipment; and
- b. complete a written report to the Deputy Warden Support Services of equipment, etc. requiring repair, replacement or duplications, including recommendations to correct problems and time frame necessary to make necessary corrections.

3.

The Deputy Warden Support Services shall direct the Maintenance Director to:

- a.
- c. conduct an inspection of the following equipment:
  - (1) execution chamber;
  - (2) observation cell; and
  - (3) emergency back-up systems and equipment.

4.

REVISED 06/10/10

TMF 01/05 - pg.99

- a.
    - (1)
    - (2)
    - (3)
  - b. A pre-inventory check shall be completed to ensure equipment is operational and in proper working order.
- 5.
- a.
    - (1)
    - (2)
      - (a)
      - (b)
      - (c)
    - (3) emergency back-up systems and equipment.
  - b. Emergency equipment shall be checked to ensure readiness for the execution.
- 6.
- a. Complete the procedures as outlined in 5, above.
  - b.
  - c.

REVISED 06/10/10

TMF 01/05 - pg.100

d.

(1)

(2)

(3)

TMF 01/07.01 General Provisions

TMF 01/07.02 News Media Witnesses

TMF 01/07.03 Designation of Persons Required, Permitted or  
Prohibited from Witnessing

TMF 01/07.04 Witness Agreement

REVISED 06/10/10

TMF 01/07 - pg. 107

TMF 01/07.00 WITNESSES

TMF 01/07.01 General Provisions

A. Purpose of Chapter

The purpose of this chapter is to:

1. identify the types and number of witnesses permitted to attend the execution; and
2. to provide legal requirements concerning the witnessing of the execution.

B. Policy

It is the policy of the Department that:

1. procedures for selecting witnesses to the execution shall conform with 77-19-11 UCA;
2. witnesses shall enter into written agreements before being approved for attendance; and
3. witnesses shall be subject to search prior to being admitted.

TMF 01/07.02 News Media Witnesses

- A. Members of the news media shall be permitted to witness the execution.
- B. Selection shall be at the discretion of the Executive Director/designee.
- C. Refer to TMF 01/08 for news media selection procedures.

TMF 01/07.03 Designation of Persons Required, Permitted or Prohibited from Witnessing

- A. The Utah Code limits and identifies those persons who may attend and witness the execution.

REVISED 06/10/10

TMF 01/07 - pg.108

1. The Executive Director of Corrections or his designee shall:
  - a. cause a physician to attend the execution, 77-19-10 (5) UCA; and
  - b. permit the attendance at the execution of members of the press and broadcast news media named by the Executive Director of the Department/or his designee, 77-19-11 (4) UCA.
2. At the discretion of the Executive Director of the Department of Corrections/designee, the following may attend the execution:
  - a. the prosecuting attorney, or his designated deputy, of the county in which the defendant committed the offense for which he is being executed, 77-19-11 (2)(a) UCA;
  - b. no more than two law enforcement officials from the county in which the defendant committed the offense for which he is being executed, 77-19-11 (2)(b) UCA;
  - c. the Attorney General or his designee, 77-19-11 (2)(c) UCA;
  - d. religious representatives, friends, or relatives designated by the defendant, not exceeding a total of five persons, 77-19-11 (2)(d) UCA; and
  - e. unless approved by the Executive Director, no more than five close relatives of the deceased victim, as selected by the Executive Director, but giving priority in the order listed in TMF 01/01.04.
3. The persons enumerated in Subsection (2) may not be required to attend, nor may any of them attend as a matter of right, 77-19-11 (3) UCA.

REVISED 06/10/10

TMF 01/07 - pg. 109

4. The following persons may also attend the execution:
    - a. staff as determined necessary for the execution by the Executive Director of the Department of Corrections/designee; and
    - b. no more than three correctional officials from other states that are preparing for executions, but no more than two correctional officials may be from any one state, as designated by the Executive Director of the Department of Corrections or his designee, 77-19-11 (7)(a) UCA.
  5. Other necessary staff designated by the Executive Director of the Department of Corrections/designee shall be permitted to the execution.
    - a. The "necessary staff" shall include those persons identified in the post orders and procedures in TMF 01.
    - b. "Necessary staff" shall not be limited to members of the Utah Department of Corrections but may include members of allied agencies assisting with the execution.
  6. The Department is empowered and directed by 77-19-11 (8) UCA to adopt rules governing the attendance of persons at the execution.
  7. No person under the age of 18 may attend the execution.
- B. For those persons who shall carry out the execution or serve in support roles in the execution area, refer to TMF 01/05.05 B, C.

REVISED 06/10/10

TMF 01/07 - pg.110

TMF 01/07.04 Witness Agreement

(See following page for Witness Agreement.)

**Rules of Conduct for Witnesses Observing an Execution  
at the  
Utah State Prison**

1. That you will not bring onto prison property anything constituting legal or illegal contraband under any applicable statute, rule, or policy including any firearm, dangerous weapon, implement of escape, explosive, spirituous or fermented liquor, medicine, poison, or any other item creating a threat to the safety, security, or management of the prison;
2. That you agree to submit to a reasonable search for contraband and other searches as considered necessary by the Department for entry to Department prison and staging area property;
3. That you conduct yourself in a lawful and orderly manner;
4. That you comply with all lawful directives of correctional personnel while on Department property;
5. That you will not bring to the execution site any photographic or recording equipment; and
6. That you understand that the Department of Corrections will not provide mental health services to witnesses.
7. That you understand the Department of Corrections is required to record/report the names of all witnesses in attendance as well as provide the information to media representatives.

I have read the above rules and agree to abide by them. I understand that my failure to comply with the rules will result in my immediate removal from Department of Corrections property and that I may be subject to criminal prosecution.

TMF 01/08.00 NEWS MEDIA PROCEDURES

TMF 01/08.01 General Provisions

A. Purpose of Chapter

The purpose of this chapter is:

1. to provide the policies, procedures and requirements for providing access to the execution and information relating to the execution to the news media;
2. to provide the procedure for:
  - a. releasing background information;
  - b. releasing information during the execution;
  - c. coverage of the execution; and
3. to provide requirements for safeguarding the institution and protected information.

B. Policy

1. It shall be the policy of the Department to permit press access to the execution and information concerning the execution consistent with the requirements of the constitutions and laws of the United States and state of Utah.
2. The Department is generally required to provide no more access to the news media, to the inmates and facilities it supervises and controls than that available to the general public.
3. The Department and the Utah Code recognize the need for the public to be informed concerning executions conducted by the Department of Corrections.
  - a. The Department will participate and cooperate with the news media to inform the public concerning the execution.
  - b. Information should be provided in a timely manner.

4. If the condemned is willing, the Department may allow an opportunity for the condemned to speak with the news media. If allowed, the interview may:
  - a. include those members of the news media selected to witness the execution;
  - b. include additional members of the news media authorized by the Department, but not including more than one reporter from the same agency; and
  - c. be held at a time and location determined by the Department.
5. During exigent circumstances, communication may be temporarily suspended until the situation has been stabilized. Exigent circumstances shall include, but not be limited to:
  - a. riots;
  - b. hostage situations;
  - c. fires or other disasters; or
  - d. other inmate disorders.
6. Refer to Chapter AGr05, "Media Relations" for general news media access to information, inmates and facilities.

TMF 01/08.02    News Media Selection

A.    Number in Attendance

The Department shall permit members of the press and broadcast news media to witness the execution.

B.    Authority to Select

The Executive Director/designee shall be responsible for selecting the members of the

REVISED 06/10/10

TMF 01/08 - pg.114

news media who will be permitted to witness the execution. 77-19-11(4) UCA

C. Selection Process

1. After the court sets a date for the execution of the death penalty, news directors or editors may submit a written list of news media witnesses (one per organization) and other news personnel needed at the execution, to the attention of the Executive Director at least 30 days prior to the execution. When administrative convenience or fairness to the news media dictates, the Department in its discretion may extend the request deadline.
2. Requests for consideration may be granted by the Executive Director/designee provided they contain the following:
  - a. a statement setting forth facts showing that the requesting individual falls within the definition of "member of the press and broadcast news media" set forth in these regulations;
  - b. an agreement to act as a pool representative as described in these regulations;
  - c. an agreement that the media member will abide by all of the conditions, rules and regulations while in attendance at the execution; and
  - d. agreement that they will conduct themselves consistent with existing press standards.
3. Upon receipt of a news director's or editor's request for permission for news media witnesses to attend the execution, the Executive Director/designee may take such steps as he deems necessary to verify the statements made in the request. After verifying the information in the requests, selection

of witnesses shall be made by the Executive Director/designee.

4. The Executive Director/designee shall identify the media members who have been selected to witness the execution. Media members shall be selected on a rotating basis from the following organizations:
  - a. Salt Lake daily newspapers;
  - b. television stations licensed and broadcasting daily in the State of Utah;
  - c. one newspaper of general circulation in the county in which the crime occurred;
  - d. one radio station licensed and broadcasting in the State of Utah; and
  - e. the remainder from a pool of broadcast, print and wire services news media organizations operating in Utah.
5. In the event that the Executive Director is unable to name a news media witness from each of the above-described organizations, he shall name other qualifying media members to attend.
6. No news media witnesses other than those named to attend the execution as described in this chapter shall be permitted to witness the execution.

D. Pool Photographers

1. Two photographers shall be appointed as pool photographers to photograph/film the execution chamber following clean up.
2. The pool photographers may be selected from agencies other than those

REVISED 06/10/10

TMF 01/08 - pg.116

represented among those witnessing the execution.

TMF 01/08.03 Alternate Coverage/Accommodations

A. Additional Media Selected

1. The Executive Director may designate additional members of the press and broadcast news media who request and receive permission to be allowed at a location designated by the Executive Director on prison property during the execution.
2. The additional media selected shall be from both the print and broadcast media.

B. Alternate Location

1. The alternate location shall be a press briefing area.
2. Media members must contact the Department's Public Affairs Director at least 14 days prior to the execution date to make any special arrangements for hook ups or other necessary arrangements. Any expense incurred shall be borne by the specific news media requiring special equipment or hook ups.
3. No special access nor briefings will be provided to members of the press who are not selected as witnesses nor selected for the alternate site.
4. The alternate site shall be made available to the selected members of the news media at 1700 hours the day prior to the scheduled execution date.

C. Briefing Media at the Alternate Site

1. The Public Affairs Director shall arrange for:
  - a. pre-execution briefings;
  - b. distribution of media briefing packages;

- c. briefings throughout the execution event; and
  - d. post-execution briefings by the news media who witnessed the execution.
2. The news media witnesses to the execution shall be returned to the media briefing area to answer questions from media members at the alternate site.

TMF 01/08.04 News Media Attendance at the Execution

- A. The Warden/designee shall permit the members of the press and broadcast news media, selected by the Executive Director/designee in accordance with these regulations, to witness the execution.
- B. Each news media witness attending the execution shall be carefully searched prior to admittance to the execution chamber.
  - 1.

- a. Electronic or mechanical recording devices include, but are not limited to, still, moving picture or video cameras, tape recorders or similar devices, broadcasting devices, or artistic paraphernalia, such as notebooks, and drawing pencils or pens, etc.
  - b. Violation of this prohibition is a class B misdemeanor. 77-19-11(5)
  - c. Only a small notebook (no larger than 4" x 6") and a pen or pencil issued by the Department shall be permitted.
2. Only the selected members of the news media (witnesses and two pool photographers) shall be allowed to

REVISED 06/10/10

TMF 01/08 - pg.118

attend the pre-execution briefing. The group will be escorted into a briefing room.

a.

b.

c.

3.

a.

b.

4. Persons requesting to witness the execution shall be required to sign a statement or release absolving the institution or any of its staff from any

REVISED 06/10/10

TMF 01/08 - pg.119

legal recourse resulting from the exercise of search requirements or other provisions of the witness agreement.

- C. The Warden/designee shall not exclude any news media witness duly selected in accordance with these regulations from attendance at the execution except as described in these regulations, nor may the Warden/designee cause a selected news media witness to be removed from the execution chamber unless the media member:
  - 1. refuses to submit to a reasonable search as permitted in these regulations;
  - 2. faints, becomes ill or requests to be allowed to leave during the execution;
  - 3. causes a disturbance within the execution chamber; or
  - 4. refuses or fails to abide by the conditions and regulations set forth by the Department.
- D. The execution chamber shall be arranged so as to provide space for the attending news media witnesses and the space arranged shall have a view of the execution site, with the exception of:
  - 1. a view of the members of the firing squad, if employed; or
  - 2. if lethal injection is chosen, those directly administering the method of execution, who shall be concealed from the view of the media members so that their identities will remain unknown.
- E. The selected news media witnesses shall be transported as a group to the execution location prior to the execution and shall be allowed to remain there throughout the proceeding.
- F. The Department shall designate a representative or representatives to remain with the media members throughout the execution proceedings for the purpose of supervising and escorting.

REVISED 06/10/10

TMF 01/08 - pg.120

- G. News media witnesses shall be admitted to the execution area on the date set for the execution only after:
  - 1. proof of identification have been presented to the Public Affairs Director/designee at the staging area;
  - 2. receiving an orientation by the Public Affairs Director/designee; and
  - 3. signing an agreement to abide by conditions required of news media witnesses to the execution.
- H. After the execution has been completed and the site has been restored to an orderly condition, news media witnesses may be permitted to return to the execution chamber for purposes of filming, photographing and recording the site.
  - 1. Re-entry to the site shall be permitted only after the site has been restored to an orderly condition, including:
    - a. removal of the body of the condemned;
    - b. evacuation of those involved in administering the execution; and
    - c. clean up of the execution chamber.
  - 2. Restoring the site to an "orderly condition" prior to the filming opportunity shall not unnecessarily disturb the physical arrangements for the execution.
  - 3. Media members permitted to return to the execution chamber for the filming and recording of the site shall include:
    - a. the news media witnesses who were selected to witness the execution;
    - b. one pool television camera man; and
    - c. one pool newsprint photographer.

REVISED 06/10/10

TMF 01/08 - pg.121

4. The film/videotape shall not be used in any news or other broadcast until made available to all agencies participating in the pool. All agencies receiving the film/videotape will be permitted to use them in news coverage and to retain the film/videotape for file footage.
- I. News media representatives shall, after being returned from the execution to the staging area, act as pool representatives for other media representatives covering the event.
  1. The pool representatives shall meet at the designated media center and provide an account of the execution and shall freely answer all questions put to them by other media members and shall not be permitted to report their coverage of the execution back to their respective news organizations until after the non-attending media members have had the benefit of the pool representatives' account of the execution.
    - a. News media members attending the post-execution briefing shall agree to remain in the briefing room and not leave nor communicate with persons outside the briefing room until the briefing is over.
    - b. The briefing shall end when the attending news media members are through asking questions or after 90 minutes, whichever comes first.
  - 2.

TMF 01/08.05 Limitations on Coverage

- A. The Warden, with the concurrence of the Executive Director, may alter these regulations to impose additional conditions, restrictions and limitations on media coverage of the execution when such requirements become necessary for the

REVISED 06/10/10

TMF 01/08 - pg.122

preservation of prison security, personal safety or other legitimate interests which may be in jeopardy.

- B. If extraordinary circumstances develop, the additional conditions and restrictions shall be no more restrictive than required to meet the exigent circumstances.

TMF 01/08.06 News Media Briefing

A. Pre-Execution Briefing Packets

1. The Public Affairs Director shall prepare a press briefing packet for reporters approved to witness the execution, or to cover the execution from the news media staging area.
2. The briefing press packet should be provided to news media representatives as they arrive at the staging area.
3. The contents of the press briefing packet shall include, but not be limited to, biographical information on the condemned, the list of official witnesses, pool reporters, family witnesses, execution procedures, sequence of events, and the history of executions in Utah.
4. Updates will generally be communicated and/or distributed to the press on an hourly basis beginning about 1700 hours the day preceding the execution. Briefing updates should include:
  - a. a summary of activities related to the execution procedures and sequence of events; and
  - b. a summary of the condemned inmate's activities during his final 24 hours.

B. Death Announcement

1. The Public Affairs Representative/designee shall read a prepared statement to the press, prior to the post-execution press conference, announcing that the execution has been completed.

2. The announcement shall include, but not be limited to:
  - a. the time of the execution;
  - b. the time the condemned was pronounced dead; and
  - c. the condemned's final words.

C. Post-Execution Conference

1. The post-execution conference shall begin immediately following the arrival of the pool reporters from the execution site.
2. The Public Affairs Director shall introduce the members of the press who witnessed the execution and facilitate the post-execution conference.
3. The Executive Director, Deputy Director, Institutional Operations Division Director and/or Warden may appear and answer questions at the press conference.
4. The post-execution conference shall continue for ninety minutes or until the questioning of the reporters who witnessed the execution has been completed; whichever comes first.

D. Travel Routes

- 1.
- 2.

E. Media Center

1. The Media Center shall be located in the designated staging area.

REVISED 06/10/10

TMF 01/08 - pg.124

2. The Public Affairs Director shall assume responsibility for routine press briefings at the Media Center.
3. Press briefings and the post-execution conference will be held at the Media Center.
4. News media personnel may not access nor occupy any other part of the staging area. The media shall have access only to the designated media center.
5. Members of the news media may not seek, speak to or interview any official visitor while at the staging area.
- 6.

TMF 01/08.07     News Media Support and Equipment

A.     Telephones

1. The Public Affairs Director shall coordinate all telephone needs with the Deputy Warden Support Services at the Utah State Prison.
2. Each news agency requiring dedicated telephone lines, shall submit in writing its telephone needs to the Public Affairs Director 14 days prior to the scheduled execution. Agencies requesting dedicated phone lines will be responsible for the cost of those lines.
3. The Department shall install a reasonable number of telephones, for local use and collect calls only, for news media use at the Media Center. If the Department is unable to install collect-call only telephones, personal cellular phones may be used.

B.     Electrical Outlets

REVISED 06/10/10

TMF 01/08 - pg.125

Each news agency must communicate its needs for electrical power to the Public Affairs Director 14 days prior to the scheduled execution.

C. Refreshments

The Public Affairs Director may inquire about having a private caterer at the staging area for the media to purchase items.

D. News Media Support Vehicles

1.

2.

TMF 01/08.08 Media Representative Agreement

(See following page for Media Representative agreement.)

Rules of Conduct for Media Representatives Observing an Execution  
at the  
Utah State Prison

1. That you will not bring onto prison property anything constituting legal or illegal contraband under any applicable statute, rule, or policy including any firearm, dangerous weapon, implement of escape, explosive, spirituous or fermented liquor, medicine, poison, or any other item creating a threat to the safety, security, or management of the prison;
2. That you agree to submit to a reasonable search for contraband and other searches as considered necessary by the Department for entry to Department prison and staging area property;
3. That you conduct yourself in a lawful and orderly manner;
4. That you comply with all lawful directives of correctional personnel while on Department property;
5. That you will not bring to the execution site any photographic or recording equipment;
6. That you understand that the Department of Corrections will not provide mental health services to witnesses; and
7. That you understand the Department of Corrections is required to record/report the names of all witnesses in attendance as well as provide the information to media representatives.

I have read the above rules and agree to abide by them. I understand that my failure to comply with the rules will result in my immediate removal from Department of Corrections property and that I may be subject to criminal prosecution.

TMF 01/20.00 REVIEW AND DOCUMENTATION

TMF 01/20.01 General Provisions

A. Purpose of Chapter

The purpose of this chapter is to provide the policies, procedures and requirements for reviewing the execution process.

B. Policy

1. It shall be the policy of the Department that of the execution process shall be performed as ordered by the Executive Director.
2. Auditors assigned to perform these reviews shall be allowed access to designated aspects of the execution preparation.
3. Auditors participating in the review of the execution are not to be involved in the execution preparation process, but shall act as observers only and, at all times, act in such a way that they create the least disruption possible in that process.
5. Appropriate documentation of the execution shall be created, collected, safeguarded, and retained to provide an adequate review trail and a proper historical record.
6. Documentation shall be protected in accordance with 64-13-25(2) UCA.

TMF 01/20.02 Review Assignment

Authority to Conduct a Review

1. The Executive Director shall be responsible for determining if a review is to take place in each execution.
2. The Auditor(s) selected for the execution review shall, upon direction

from the Executive Director, prepare a questionnaire to be completed by staff involved in the execution process. The survey shall be approved by the Executive Director and all responses shall be confidential. Only the Executive Director may grant release of the survey responses.

TMF 01/20.03 Documentation of Execution

Documentation to be Retained

Documentation which shall be retained shall include:

1. the warrant and all other legal papers;
2. correspondence, both official and unofficial, which is received by the Department of Corrections;
3. minutes of meetings held for purposes of planning or disseminating information;
4. inter-agency written communication;
5. intra-departmental written communication;
6. logs, journals, chronological notes, etc., of key locations; and
7. a newspaper file.

TMF 01/20.04 Retention and Safeguarding Documentation

A. Execution File

1. An execution file shall be established for each condemned person. The file shall be organized into sections which should include:
  - a. legal documents;
  - b. official correspondence;

- c. unofficial correspondence;
  - d. intra-departmental written communication;
  - e. chronological notes, logs, etc.; and
  - f. meeting minutes.
- 2. Each section of the execution file shall have material filed in chronological order.
  - 3. All working documents which cannot be filed during the execution process or immediately after, shall be copied and a copy shall be placed in the execution file.
  - 4. All intra-departmental communication shall have a courtesy copy to the execution file.

B. Execution File Maintenance

- 1.
- 2.

C. Access to Execution File

Only those individuals authorized by the Executive Director of Corrections, DIO Director, or Warden, shall have access to the execution file.

D. Long-Term Storage

To ensure that all documents concerning an execution shall be retained to provide a review trail and an adequate historical record, the execution file shall be stored in accordance with the archive's plan of the Department.

REVISED 06/10/10

TMF 01/21 -- pg. 238

TMF 01/21.00 TRAINING AND BRIEFING

TMF 01/21.01 General Provisions

A. Purpose of Chapter

The purpose of this chapter is to provide the policy and procedure concerning briefing and training of staff, members of allied agencies and others involved in an execution.

B. Policy

It is the policy of the Department that staff and others involved in carrying out an execution:

1. receive comprehensive briefings covering:
  - a. their duties and responsibilities;
  - b. the specifics of post orders covering assigned positions;
  - c. communication and chain of command;
  - d. overview of functions and activities during the execution;
2. are provided copies of post orders outlining the duties and responsibilities of assigned positions;
3. receive the level of briefing and training necessary based on the requirements of assigned duties;
4. rehearse and practice functions which involve:
  - a. difficult timing;
  - b. a high degree of skill;
  - c. procedures of a highly critical nature; and/or
  - d. moderately difficult or complex interaction with others; and

5. receive instructions concerning back-up systems to provide:
  - a. problem-resolution assistance;
  - b. policy decisions;
  - c. crisis management assistance; and
  - d. information requests.

TMF 01/21.02 Training and Briefing Components

A. General

Training and briefing shall include, but not be limited to:

1. issuing all members or other participants a post order for their assigned positions;
2. providing an orientation or briefing covering assigned duties and general operational information;
3. if necessary, detailed training covering legal, operational or technical aspects of assigned position;
4. if necessary, rehearsal of job functions; and
5. key positions in Manual TMF 01.

B. Post Orders

1. Each member or other participant shall be issued the post order or instructions for his assigned position.
2. The post order shall include, but not be limited to:
  - a. the position title;
  - b. location(s) of assignment;
  - c. title of supervisor;

- d. supervisory role, if any;
  - e. duties and responsibilities--  
general and specific; and
  - f. emergency role.
- 3. When appropriate, one or more chapters of TMF 01 may be issued with a post order.
  - 4. All post orders (and any accompanying manual material) shall be returned at the completion of the execution event.

C. Briefing/Orientation

- 1. Most assignments will be very specialized, involving a narrow range of duties. For such positions, briefing/orientation sessions will be all the training required in addition to the general training skills and experience of the persons assigned.
- 2. Orientation sessions shall include but not be limited to:
  - a. an overview of the execution process and operational components;
  - b. location of assigned post;
  - c. chain of command and organizational information;
  - d. an overview of the countdown of activities and procedures leading to the execution;
  - e. an explanation of support and crisis intervention systems;
  - f. interaction with the news media;
  - g. a review of the specific post order requirements, duties and other elements; and

h. a question-and-answer period.

D. Training/Rehearsal

1. For assignments requiring more technical or complex functions, critical timing or interaction elements, or duties of a particularly difficult nature, more comprehensive training shall be required.
2. Team leaders shall be responsible for training and scheduling rehearsals as needed for team members.
